

# MANSLAUGHTER CHARGE IN LOCAL CHILD SHOOTING GIRL FLIER IS KILLED

## AVIATRICES, AS ALL WOMEN, HAVE OWN WAY OR QUIT—WILL

(Special To The News)  
BEVERLY HILLS, Cal., Aug. 20.—With the papers stating that we had 11,000 miles of lighted airways, a Zeppelin with 60 people going around the world in less time than a congress man can make a speech, with twenty more or less beautiful air-headed women who have exchanged their kimono for helmets and goggles, with our great navy flier, Williams, turning up to go 350 miles an hour, and me feeding two Ford and a Buick, and 35 head of horses, it just looks like I'm out of tune with progress.

Yours,  
WILL.  
P. S.—They are aviators but they are still women. They had only been out 60 miles, when they all struck and wanted to have it their way.

## PA NEW OBSERVES

Requests for touring information at the office of the New Castle Motor Club reveal the fact that quite a few New Castle folks are just preparing to take their annual vacation. The touring season will not end until the weather gets too cold for comfortable driving during the day time.

Those who attend the official opening of the state game farm Saturday and who have not visited the place before will miss the most interesting part of the year's work. Only a few birds are on hand now most of them having been shipped away for release in various parts of the state. The hatching period when thousands of the downy little birds are to be found, is the time to visit the place if one would see the real work going on. Of course there are still quite a few birds at the game farm but most of them have been shipped out, 600 being sent away last week.

It begins to look as if there is a real big time brewing at Cascade Park on Thursday August 23 when the merchants of the city will hold their first annual picnic. Those who stay away are going to miss a big time, those in charge assert.

Many automobiles are being parked on the vacant ground adjacent to the old Rosena dam. Might not be a bad idea for the city to grade the plot off a bit and establish a municipal parking ground there like they have in other cities. There is space for several hundred cars literally going to waste and it is hardly the business section of the city too.

Pa News observed a man with an "ice cream" suit and straw hat, wearing a top coat on the street this morning. Seems like fall is pretty nigh at hand.

Last night's minimum temperature was too close to the freezing point to be comfortable for the farmers of Lawrence county, who are deeply concerned over the way the weatherman has been treating them. The minimum temperature registered during the night at the local observing station was 39 degrees, just seven points above the freezing point.

A notice which always manages to startle one is that of breaking glass. When several—as panes in a show—

## District Attorney Prefers Charge In Shooting Of Girl

Genevieve Rich Is Held Under Bail For Trial For Shooting Olga Zemaack

## BRYAN ACTS AFTER CORONER'S INQUEST

Testimony As To Actual Shooting Conflicts—Two Shots Fired

For what is thought to be the first time in the history of Lawrence County, an eleven year old girl will be tried for manslaughter, when Genevieve Rich, age 11, of 638 Cascade street will be tried for the death of Olga Zemaack, age 7. The shooting occurred on August 14 in an automobile which was in the back yard of the Rich home.

The decision to hold the little girl for manslaughter was made by District Attorney J. Elder Bryan following the coroner's inquest which was held in the office of Alderman L. C. Mantz Monday evening. The verdict of the jury follows: "We find that Olga Zemaack came to her death on August 14, 1929, on Cascade street, New Castle, Pa., from a bullet or bullets fired from a rifle in the hands of Genevieve Rich. Because of the conflict of testimony we recommend that the case be held for further investigation by the district attorney." It was signed by Clarence Davis, G. L. Stewart, James Covert, Bart Rich.

## News Man Makes Trip Over New Muny Golf Course; Finds Course Is One Which Will Require Real Skill

New Castle takes its place with cities owning municipal golf course, when on Friday August 23, the municipal course on the Ellwood Road will be formally opened with plenty of the well known eclat, and whoop-dee-deo featuring the event.

For a year the muny course has been in the minds of the sportingly inclined, and all summer long workmen have been out there, draining, grading, planting grass, and along with what the city did, has been assistance from such executives as Robert J. Tully, general superintendent of the Carnegie Steel Company, H.

L. Gordon, general manager of the Johnston Limestone Company, H. B. Richards, superintendent of the New Castle Water Company, W. J. Offutt, head of the Recreational body, and a score of others, all of them lending every aid to the completion of the course.

Opening Day Program  
While the formal opening is on Friday, the course is not yet completed. Holes 2, 3, 4, 5, and 6 are on the new section of the course and will not be ready for play this year. The other 13 holes are ready for play and can be used on Friday and thereafter.

For formal opening there will be a few set exercises. Howard B. Richards is the general chairman of the day and has asked Attorney Thomas W. Dickey, president of the New Castle Club to deliver the dedication address. Mr. Dickey has accepted.

The Lawrence County Boy Scouts will be present and will present their flag raising ceremony, a flag having been presented by H. L. Gordon, and the pole by the Carnegie Steel Company. Then Hizzoner Mayor William H. Gillespie will sentence the first golf ball to a long drive, but there are those who believe that the ball will be poked before it reaches the fifty yard mark. However the mayor is

going to smack the first one off and whether it is good, bad or indifferent, makes not a whit of difference. The thing is, the mayor will be there with a club in his hand, and the club will not be a policeman's hickory.

# Chinese Troops Sent To Border

Wholesale Evacuations From Towns Along Manchurian Frontier Are Reported

## CHINESE SOLDIERS MALTREAT WOMEN

By JOHN GOETTE, International News Service Staff Correspondent

HARBIN, Manchuria, Aug. 20.—In wholesale evacuation from towns along the Manchurian frontier, hundreds of Chinese are being sent to the interior of Manchuria, thrown into panic by recurring raids by Soviet troops stationed on the frontier.

This evacuation was revealed today in official customs department dispatches from Tachien. The dispatches confirmed reports that the Sino-Russian crisis is becoming more serious hourly.

A check-up of reports indicates that the sporadic raids carried out by the Russians thus far have caused only two hundred casualties, but apparently the Chinese authorities are determined to bring these raids and the subsequent armed clashes to an end.

A total of 150,000 Chinese troops, well armed and equipped, are being rushed to strategic border points on six railroad lines.

It appeared today that the Soviets have not been alone in warlike activities. Reports from the frontier indicate that individual Chinese soldiers have been maltreating Russian and Japanese women, while the Chinese military authorities are acting cruelly toward interned and imprisoned Russian civilians.

munity such as Narberth to let a crime like this go by without a most thorough investigation," he added.

Case of Murder  
Dr. Carl White, the family physician, also expressed his belief the case was one of murder despite the failure to find any traces of poison in the girl's vital organs.

Disatisfaction with the work of the lower Merion township authorities in the case by neighbors and friends led to the belief today that the district attorney of Montgomery county would be asked to probe the girl's mystery death.

Secret burial of the body took place late yesterday. Internment was made in an Arizona cemetery.

The coroner listed the case as a "probable homicide."

No decision has been made as to whether an inquest will be held.

# SENATE COMMITTEE LEANS TO FLEXIBLE TARIFF PROVISION

(Continued From Page One)

provision, although the new plan approved by the House probably will be modified. There appeared some disposition to change the House provision, giving the President authority to transfer the application of rates from the foreign valuation to the American valuation of imported articles. This particular feature of the House bill has been attacked as unconstitutional and a delegation of congressional powers.

Question Raised  
The question of valuations probably will be settled without much delay. Senator Reed (R) of Pennsylvania has sponsored a plan to adopt a "United States valuation," while many industrial interests have argued for "American valuations." Under the United States valuation duties would be assessed against the American wholesale selling price of imported goods. The tariff commission already has prepared a transition of the new duties into rates based on United States valuation. The new duties were based on foreign valuations.

The American valuation plan was discarded years ago and there appeared no chance at all of its adoption. While Reed has won some converts to his "United States plan," there appeared every likelihood that the committee Republicans would reject it and continue the present system or foreign valuation plan.

One highly important administrative change may be authorized, transferring the whole judicial branch of the customs service from the Treasury Department to the Department of Justice. The treasury and the judges of the court have recommended the change, since the United States customs—situated in New York City—is the only judicial tribunal outside the Department of Justice.

Number of Changes  
A number of House changes in other administrative features of tariff law already have been approved by the Senate Republicans. This list includes the exclusion of all books urging treason, insurrection or injury to the President; the exclusion of cattle or meats from countries where the hoof and mouth disease is prevalent; and the exclusion of "unhealthy foods." The old provision barring convict-labor goods from other countries also was adopted.

The new rates, made public yesterday, found little support among insurgents or Democrats. Senator Thomas (D) of Oklahoma, immediately announced he would sponsor a resolution rejecting all increases except those by applying to agricultural products.

Borah Offers Proposal  
This was the proposal made, in effect, by Senator Borah (R) of Idaho, last June, which the Senate rejected by the close vote of 38 to 39. Thomas said he felt the Senate would adopt his resolution when it returns for session after Labor Day. Borah said he would support it.

Comment on the new rates was unfavorable among all but the administration ranks. Two typical statements would indicate the Democratic-insurgent sentiment.

"The more you study this bill," observed Borah, "the less you like it." "This bill would give the producers of any state 10 cents," countered Thomas, "and charge them a dollar for it."

Nothing more has been heard of the airman since they circled over the village of Praia Victoria, on the island of Terceira at 6 p. m. yesterday (3:30 p. m. New York Daylight Saving Time).

No indication was given that the fliers were experienced, and a difficulty, and after swooping low over the village, their plane struck out on a straight westerly line over the ocean. Weather conditions in the vicinity of the Azores were excellent, and there were no reports of heavy storms between here and the coast of America.

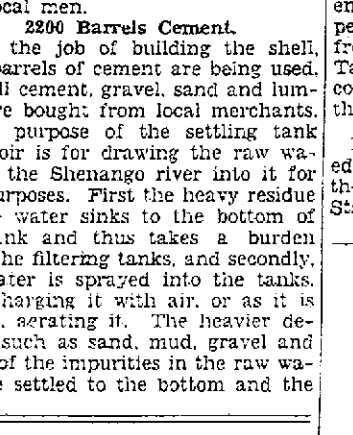

Lisbon, Aug. 20.—Aeronautical authorities were watching with undigested interest today the attempted flight of the monoplane "Young Switzerland" from Lisbon to America.

Oscar Kaeser and Kurt Luescher, the young aviators who are attempting the flight, have the sympathetic support of the Portuguese aviation authorities who co-operated in getting them started out across the Atlantic, and reports of their progress over the ocean were anxiously awaited.

Kaeser and Luescher are the youngest aviators to attempt a trans-Atlantic flight. Kaeser is only twenty-one years old, and his companion one year his senior. Neither is experienced in navigation, but both are expert pilots, and before they started from the beach on the banks of the Tagus river they expressed utmost confidence in their ability to make the flight successfully.

# EMPEROR OF JAPAN ARRANGES TEA FOR ZEPLIN MEMBERS

(Continued From Page One)

the Graf Zeppelin, including Lady Grace Drummond Hay, the only woman aboard the air liner, have been commenced to appear at the imperial palace in the imperial compound tomorrow afternoon to take tea with the emperor and recount the story of their thrilling flight over half of Europe and all of Asia from Friedrichshafen, Germany, to Japan.

Emperor Interested  
Few visitors to Japan of any degree have been so honored by the Mikado, sovereign of the oldest unbroken ruling dynasty in the world. Emperor Hirohito, the 124th Mikado to sit on the throne of the flowery kingdom, is intensely interested in aviation, and has done much to foster its development in Japan.

His patronage of the Graf Zeppelin's pioneer commercial flight around the world places upon this venture the stamp of highest approval, and accords the passengers and crew an honor which even the most ambitious had not dared to hope for. But the emperor's tea is merely one of a long series of entertainments and receptions which have been planned for the round the world travelers.

Ever since the Graf zipped down at Kasumigaura air field yesterday afternoon after its record breaking 102-hour flight from Friedrichshafen, completing the second leg of the 25,000 mile journey, invitations have literally poured in upon Dr. Hugo Eckener, commander of the dirigible, and his companions.

So great has been the flood of correspondence from various individuals and organizations wishing to honor the adventures that considerable difficulty has been encountered in finding sufficient time to give them the proper consideration and dispatch replies of acceptance or refusal as the case may be.

Refuel Zeppelin  
But in spite of the elaborate program of festivities mapped out for the passengers and the officers, there has been no let-up in the work of refueling and inspecting the Monarch of the air in order that it may be ready for a take-off for Los Angeles early Thursday morning.

It was originally planned that Dr. Eckener would be honor guest today at a luncheon tendered by the Newspaper Assn., but this arrangement was altered and the six commodore of the imperial aeronautical association.

However, the newspaper will give an elaborate Japanese banquet to the crew tonight.

Dr. Eckener will be honor guest tonight at a dinner given by the government ministry of communications.

Youths Pay Tribute  
Japanese youth paid its tribute to the Graf and her crew in an interesting ceremonial in front of the imperial palace during the morning. It was attended jointly by the federal youth men's association and the Tokyo boy scouts. With shouted "banzais" and much banner waving the young men gathered at the famous two bridges before the palace where the Toyama military band opened ceremonies with patriotic music.

Major Zeppo Horikiri and Viscount Shoda, "bun" delivered speeches praising the prowess of the Graf's navigators and the pioneering spirit of her passengers. Dr. Eckener responded briefly.

In intervals of fetes and social functions the air sailors and passengers went sightseeing. Arrangements are being concluded for the Graf to carry a considerable amount of mail to the United States from Japan. The present understanding is that the rate will be a dollar an ounce to Los Angeles, \$1.50 an ounce to New York and \$2.50 back to Friedrichshafen.

## STAR LORE FOLLOWING A DAY AROUND THE GLOBE

By Arthur DeV. Carpenter.

If it were possible for one to leave his home town at noon, and keep up with the sun for 24 hours, it would be noon to him all the way around the globe, but as he arrived back home, what noon? Evidently the day has to begin somewhere. Navigators selected the place where the day should start and end. It is the 180th meridian west of Greenwich. There at midnight the day starts, and progresses around the globe. When the day, advancing westward, arrives back at the Date Line meridian again after 24 hours, it has finished its course and another new day races forth. (More Tomorrow)

# DEATHS OF THE DAY

(Continued From Page One)

William F. Mills.  
William Francis Mills, aged two years, of Neshannock boulevard extension, died this morning at the New Castle hospital after an illness. He was born July 2, 1927, the son of Mr. and Mrs. Milo Mills. He is survived by his parents, and a number of brothers and sisters. Funeral services will be held at 2 o'clock Wednesday afternoon. Internment will be made in St. Mary's cemetery.

George Martin.  
George Martin, one of the oldest and best known residents of Lawrence county, died this morning about six o'clock at the home of his son, J. W. Martin of North Beaver township, after a brief illness. His death was sudden and rather unexpected.

Mr. Martin was born December 17, 1839 near East Brook, Lawrence county and was in his ninetieth year. He had spent his entire life in the occupation of a farmer, with the exception of a few years spent as a blacksmith and recent years during which he has been retired. His wife preceded him in death seven years ago.

He was a member of the Reformed Presbyterian church of Rose Point. He is survived by three sons, J. W. Martin of North Beaver township, W. B. of Granter, Mo., and G. E. Martin of New Castle, and one daughter, Mrs. Mary E. Miller of Slippery Rock township.

Funeral services will be held Thursday afternoon at two o'clock Eastern Standard time at the residence of his son, J. W. Martin, in North Beaver township, with Rev. Paul McCracken, pastor of the Rose Point Reformed Presbyterian church in charge. Internment will be made in Oak Park cemetery.

Friends going to 101 West Madison avenue will be afforded transportation to the funeral home and back.

SET NOVEMBER 29 AS EXECUTION DAY FOR DR. J. H. SNOOK

(Continued From Page One)

murder was "surely premeditated." The court stated Snook's story was "inconsistent throughout," and that "there is nothing against Miss Hix's character. She was not a pervert," he concluded.

Snook, former 43-year-old Ohio State University professor, socially heard the judgment of the court that he should "burn" Ohio state penitentiary the day after Thanksgiving. He showed not the slightest trace of emotion.

He was as calm as he was during his recent trial when he never batted an eye as the fendish murder of the young and beautiful co-ed, Miss Hix, was reenacted. Snook battered and slashed his paramour to death on a lonely ride range on the outskirts of Columbus the night of June 13, leaving her horribly mutilated dead body lying in the weeds.

The state's contention was that Snook hammered and knifed the girl when she repulsed his advances, after he had given her an alleged "love potion," which had not become effective.

The jury adopted that contention, returning a verdict of guilty of first-degree murder after deliberating less than half an hour and by taking only one ballot.

The trial was one of the most sordid in the history of the country, the "love-nest" relations of the former professor and the co-ed being bared, else to be proud of.

## John S. Powers Is Candidate For District Attorney

Announces His Candidacy For  
Nomination For County  
Office

JOHN S. POWERS.

Attorney John S. Powers, 107 Milton street, today makes his formal announcement for the Republican Nomination for District Attorney. His statement follows:

I am a candidate for the Republican Nomination for District Attorney. In presenting myself as a candidate to the Republican voters of Lawrence county I do so with a proper regard for the importance of the office.

The District Attorney represents the people of his county in the prosecution of crime and criminals. Hence, it is important to select one who has had experience in this feature of the practice of law. Education, experience and aptitude for the work are all to be considered in determining the fitness of a candidate for the office. But briefly stated, a District Attorney should possess both intelligence and integrity; intelligence to adequately protect the interest of the Commonwealth when pitted against the talent of defendants' legal advisor; and the integrity to impartially uphold the law of one's county in this connection he must personally believe that such laws should be upheld.

I realize the voters of the county will rely more on their own investigation of the worth of a candidate than upon what the candidate might say in recommendation of himself. Having lived my life in this community I leave my character and reputation to speak for themselves. Neither I nor any of my relatives have ever before held or sought public office.

If nominated and elected I would assume the office free from any political alliances that might prove embarrassing to the fullest prosecution of the duties of the office and free from any promises of patronage. The only obligation that I would carry with me would be the obligation of representing the people of my county fairly, impartially and honestly.

In this public avowal of my candidacy I humbly and sincerely pledge myself to an honest, faithful and impartial discharge of the duties of the important office to which I aspire.

Very Sincerely,  
ATTORNEY JOHN S. POWERS,  
107 Milton St.

## Claim Falling Is Optical Illusion

SAN ANTONIO, Tex., Aug. 20.—The sensation of falling may be an optical illusion, after all.

Two lieutenants of Brooks field, Robert J. Smith and Frederick K. Sauer, have discovered that no falling sensation is felt if neither the earth nor the starting point of descent are visible to a parachute jumper.

With eight men, none of whom had made a parachute jump before, they left planes simultaneously. Under directions they did not look at the craft or the ground below. None reported that they felt the sensation of falling.

## Cleveland Voters At Polls Today

Voters Will Cast Ballots On  
Whether Or Not To Keep  
City Manager Plan

### (International News Service)

CLEVELAND, O., Aug. 20.—According to a jury on an attempt to kill the city manager plan of city government Cleveland voters went to the polls today to render a verdict on a charter amendment which would return to the city the old mayor-ward-council form of government.

The verdict which Cleveland's voters return today is a particular significance in the history of municipal governments. It is one that is being watched with keen interest in municipalities over the United States.

To Fight Costs Money.  
Boiled In Oil.  
All-Metal Dirigible.  
Danger Our Freedom.

By ARTHUR G. BRISBANE  
(Copyright, 1929, King Features  
Synd., Inc.)

Big, rich nations, having had all the war they want for the present, ask China and Russia not to fight. But China's border reports frequent clashes.

"Soviet troops repulsed by heavy artillery fire" and "Chinese garrison resisting with rifle fire and machine guns."

Troops and heavy artillery have been moved to the border on both sides. That means war among "higher civilized peoples."

Russia and China, especially, would find it hard to finance a war. The great Chinese banker, educated at Harvard, T. V. Soong, who recently resigned as manager of Chinese financing, said he could provide for the army of 1,500,000 men, \$6,000,000 a month, but not \$10,000,000 demanded.

That would make our wartime patriots laugh. They spent fifty times ten millions just getting ready to begin. And after they had spent 1,000 times ten millions they had nothing to show except airplanes that wouldn't fly and surface ships costing a billion that the government can't give away. War is expensive when you're unprepared.

Hazara tribesmen in Afghanistan, rebelling against their Kham, captured his general and boiled him alive in oil with his staff.

That seems incredible even among savages.

But punishment of similar brutality was common among "civilized" nations in Europe not far back than Shakespeare's day.

Queen Elizabeth's lover, Essex, had been punished for treason like ordinary men he would have been hanged, cut down before he was dead, disemboweled, then killed.

Reveille, who killed Henry the Fourth of France, was put to death with slow tortures inconceivable. He was finally killed by pouring melted lead in his abdomen.

Human beings have improved a little.

Extremely important to flying will be the proposed trial of the first all-metal dirigible, the ZMC-2, made in Michigan for the Navy.

The first experiments for an all-metal dirigible were made by Henry Ford, who had a machine for "sewing the metal," using metal for thread.

If the dirigible remains permanently a factor in aviation, which it may do for slow freight in spite of its great wind resistance, the all-metal type undoubtedly will be used.

Requiring no separate gas compartment it will weigh less than a dirigible made of cloth. Possibly of leather in such a dirigible can be prevented, making expensive helium gas unnecessary. And it is believed such dirigibles will be lightning proof.

Two young women from Kansas, one married, one single, went motoring to Denver.

They believed that "women should be free" and their freedom took the form of inviting two "slick looking" young strangers to ride with them.

Later they lay in a field where the young man had left them, their hands and feet bound, their bodies cruelly slashed, weak from lack of blood.

It is comforting to have "good pals." Ask Willie, alias "Baby Face" Doody, of Chicago. Not much bigger than Gen. Tom Thumb, the police call him a first-class gangster. And, under bonds for \$150,000, he will be tried for postoffice robberies and murder.

Is he abandoned by friends in his hour of need? No, the state's attorney gets letters, warning: "Lay off Doody, or your whole office will be burned off."

In the old days judges of religion sat in the center of a circle of blood, lest relatives of those condemned to torture or the flames should murder them later.

Wouldn't it be a good idea, in higher grade bootlegger trials, to let witnesses appear masked, giving their names privately to the judge? Or must accusers face the accused always?

A New Yorker won 1,000,000 francs gambling at Deauville.

Excited by his winnings, he gave cloakroom employees 3,000 francs, rolled 60,000 francs on the floor that bell boys might scramble for it and threw away 50,000 francs at the entrance to the Casino.

This American and another who lit his cigar with a 10,000-franc note help to explain the belief of some Frenchmen that all Americans are fools.

## Hints and Dints

Sun sets tonight 6:51. Sun rises tomorrow 5:16.

You don't need to care what a tightwad thinks of you.

From the way some fellows exploit an idea you'd think it was worth a thousand dollars a foot.

Moderns who think this age has a monopoly of thrills should have seen an old-fashioned drummer swing aboard after the train started.

A noted actress says she did not care as long as her husband gambled, drank and cut up many other kind of didos, but when she found out he was keeping a harem, that was too much. It is easy to be an ordinary woman will not even stand for a husband keeping one affinity.

If you know only a little about the Chinese war let your laundryman try to enlighten you and you won't know anything about it.

THE CENTAUR  
A most interesting animal is the centaur.

Half-man-half-horse. That is to say, a man with an equine posterior.

Winston's Simplified tells us that the species comes from Thessaly. That, principally, wherever it may be, must be quite depopulated by now, judging from the number of centaurs to be found in other countries.

And in the process of assimilation the centaur has come to resemble other men physically while still retaining unchanged under the skin.

The breed never alters its characteristics. Half-man-half-horse. (Apologies to the horse.)

Not-wit. Easily stampeded and prone to follow the herd, yes, unto perdition. He will blindly follow any wretched fraud that his bellwether sponsors.

He will pay a dollar a bottle for dishwater if put up in fancy style and marked "Sure Cure for Rheumatism."

For he is a shallow-pate. Politically, he supports the "ins." His brother centaur backs the "outs."

By virtue of the same reason, which is...? Vocationally, he may be a judge or a street-cleaner.

Some geniuses are centaurs. Sometimes we think all of them are.

The centaur takes bill-board posters seriously.

His boom companion is folly, and his favorite occupation is electing stuffed shirts to public office.

A most interesting animal is the centaur.

Everything at a county fair is interesting and the humans who find there are the most interesting. You are going to be one of the humans at the New Castle Fair, aren't you?

character of any one man that of any other man. We all have in our makeup good qualities and bad qualities and the character of our lives depends upon their respective proportions.

In our makeup, there's the man of keen mind, kind of heart, courageous and criminal. There's the man with criminal mind but a coward at heart—and living the character of eminent respectability. A little transposition—courage for cowardice—cowardice for courage—the respectable man becomes a criminal and the criminal glorifies in his respectability.

Commendation—condemnation. Just the difference of a little scallop—and a little transposing.

If the horse chestnut possessed the rheumatic curative powers attributed to it, Hot Springs would have to depend upon its golf course for popularity.

The United States is now shipping great shipments of spaghetti to Italy. We also had to ship the first chop suey to China ever seen there. May we will have to ship frogs to France later on also. We ship thousands of car loads of Spanish onions from Texas to Spain.

If there were no talkies in ancient days, who were the Hamites?

How old Noah must have been vexed when he found the two stowaway cooties.

Recipe for a successful airplane stunt: First get St. Louis to back it.

The marriage license bureau owes a good share of its business to the porch, swing, and dance hall—and don't forget the automobile.

We noticed on Dollar Day, promoted by progressive merchants in New Castle, that some tried to get the benefit of the advertising they did not help to create or pay for. There are still a lot of birds who try to profit themselves at the expense of others.

Wuff! A dog went to a tailor shop. And said to Tailor Bants: "Kind sir, your work I wish you'd stop. Until you press my pants!"

Three cheers for the Red, White and Blue allows just one for each. To give four of them would be stopping over.

Doing good isn't confined exclusively to those who always talk about doing good. Some mighty rough people do a lot of real good without using their lips.

In just a little while school will open, and then you'll know where the children are.

There won't be complete sex equality until hubby has refreshments with his golf and friend wife must eat sardines by herself.

Half the things a girl tells her boy friends are fabrications and if he talks much he's a liar.

If the waist line comes back there might still be hope for some other things coming back.

We notice where it is predicted that skirts will be longer. Everytime that is pulled the skirts shorter at least an inch or two. The short skirt is here to stay and the long skirt will get nothing but the ha ha!

A reformed man never looks back at his wicked past with as much shame as most rich snobs do on the days when they were poor.

Our simile for today: Attracted no more attention than a celebrity at a summer resort.

That baby should be in the pan or hot seat right now. No use spooling good grub to keep a bird like that around even in a cage.

People are rather decent, after all. How long could a speakeasy live if it had to depend on a collection plate?

Even the common man's life is important to Capital now. He always has about ten more installments.

My idea of some self made men is that they quit their jobs too soon.

The true optimist is one who turns into the detour and reflects happily that it has no billboards.

Whenever anyone feels that he owes a man a debt of gratitude he buys him a necktie.

People these days are not so much interested in what errand took Jack and Gill up the hill, as they are to know whether Jack had to change gears.

My idea of a gold digger is a girl who has grown out of a minor.

I imagine if that French fashion dictator who says he will make thick ankles fashionable will find a way to make them shapely he will make a bigger hit with the stylish stouts.

NO MAN CAN PRODUCE—Great work who has not been inspired by a great ideal.

A great poem who does not have a great vision of life.

A great speech who does not have a profound understanding of humanity.

A great book who trifles with a great theme.

A great sermon who does not have a great faith.

A great song without harmony in his own soul.

A great life without having a great life pattern like Jesus of Nazareth.

## South And Nation Watching Year's Campaign In Virginia

Result Of Democratic Primary Believed By Many Observers To Be Favorable To Leadership Of Governor Byrd In Organization

More than state issues are involved in the campaign which is under way in Virginia. The split in the Democratic party which put the Old Dominion in the Republican column in the Presidential battle turns the attention of the entire South, and of the nation as well, to the coming alignment of voters. The substantial majority in the Democratic primary given to James Garland Pollard, many feel, is shared by Governor Byrd. Both favored Governor Smith in the last national campaign. Dr. Pollard and his opponent, William M. Brown, supported by Republicans and insurgent Democrats, are allied with the educational circles of the state.

"Democratic leaders in Virginia," says the WASHINGTON EVENING STAR (Ind.), "assert that Pollard's election is assured. It is quite possible that they are correct. But there are signs of a bitter campaign ahead." The Star also declares: "The Virginia election this fall has assumed far more importance from the point of view of national politics than has been the case for many years. A victory by Mr. Pollard at the polls this fall will be hailed far and wide as meaning the return of anti-Smith Democrats to their old party allegiance."

The difficulties that must be faced by the coalition candidates are set forth by the ROANOKE WORLD-NEWS (Ind. Dem.): "A notable student of American history, in discussing the failure of the campaign of Horace Greeley for the presidency, describes the movement which led to Greeley's nomination as 'a hybrid mixture of incompatible political elements. The young Washington and Lee professor who has been hand-picked to oppose the Democratic nominee for governor in November, may find, before he is through with the campaign, that brought about his nomination has in it fully as many incompatible elements as did the Greeley campaign. And he will probably find on November 5 that he is as badly beaten as Mr. Greeley was in the seventies."

"Candidate Brown is one of the discoverers of 'Raskobism' as the out-standing issue in the gubernatorial campaign," charges the NORFOLK LEADER-DISPATCH (Ind. Dem.). "Such matters as road construction, taxation, the school system, the institutions of higher education, the election laws, and all other state problems that are under discussion from time to time are of small moment. The only thing that really matters in the Virginia campaign is 'Raskobism' and Dr. Brown is one of the pioneers in the discovery of this dark science who have identified and segregated that sinister power for evil."

Of the coalition, the CHARLOTTE EVENING POST (Ind. Dem.) declares: "It is entirely an opportunistic combination, a pointing of forces for strategic purposes, on the part of the Republican organization to get a footing in the South, and on the part of the Cannon outfit to acquire control of the state government of Virginia. There is no principle involved, but only a striving for political power." The BALTIMORE SUN (Ind. Dem.) offers the judgment: "Virginia faces for the first time in decades a serious two-party contest in a state election, but this prospect, long the hope of the friends of good government, appears under circumstances which make it not a blessing but a tragedy."

There are no disguising the fact that in Virginia church and state religion and politics, are now tightly interwoven.

Dr. Pollard is described by the CHARLOTTE OBSERVER (Ind. Dem.) as one who "might be regarded as democracy's best chance to redeem the Old Dominion" and as "a big man in his home state." That paper adds: "Pollard secured the nomination by a handsome vote, the size of it giving Senator Glass, who comes up for re-election next year, hope that the state is to swing back into the Democratic column next time." The LYNCHBURG NEWS (Dem.) declares: "There can be no doubt where Democrats will stand. They have settled their party differences at the polls and now will march in step, shoulder to shoulder, to elect in November the common choice."

In Virginia's Democratic machine," as viewed by the NEW YORK SUN (Ind.), "Seems to have come through the primary, in which three men sought the nomination for governor, with a minimum of scars. Among the contestants there was marked restraint of utterance and general agreement on most issues. Cynics say that they put the soft pedal on, to deprive the alliance of Republicans and Bishop Cannon's insurgent Democrats of substance in the election canvass."

The vote on election day will command interest. The TERRE HAUTE STAR (Ind. Rep.) gives assurance that "the Republican party will watch the outcome," while the ST. LOUIS GLOBE-DEMOCRAT (Ind.), calling it "no mean battle, one worth wading from a ringside seat," asserts that "analysis of conditions seems to favor the Democrats."

Recognizing that "the forces headed by Governor Byrd appear to have won decisively," the TULSA WORLD (Ind. Dem.) suggests "Out of the fight may come a real presidential candidate. Governor Byrd, if he wins this fight, will undoubtedly be a favorite in 1932." The RICHMOND TIMES-DISPATCH, holding that "the coalition hopes to win on a fluke," asserts that "Raskobism," which means nothing, will be thrown up as a smoke screen to hide both its own weaknesses and the strength of the opposition."

The situation is viewed by the SOUTH BEND TRIBUNE (Ind. Rep.): "Dr. Pollard is a prohibitionist who put party loyalty first and campaigned for Smith last year. His dryness makes opposition to him by Bishop Cannon on moral grounds entirely ludicrous." The GREAT FALLS TRIBUNE (Ind. Dem.) sees "the real test of whether Bishop Cannon is the political boss of Virginia." The MORGANTOWN NEWS-DEMOCRAT (Ind. Dem.) contends that the coalition spokesmen leave the questions of immediate concern to Virginia voters almost entirely out of consideration. The KANSAS CITY JOURNAL-POST (Ind. Rep.) is convinced that, because of recent events, "the Bishop will not be able to have quite as clear sailing as the anti-Smith fight."

Predictions of return to normalcy, party harmony and victory at the polls for the regular organization made by the NEWARK EVENING NEWS (Ind.), the CHATTANOOGA TIMES (Ind. Dem.), the RALEIGH NEWS AND OBSERVER (Dem.), the HARTFORD TIMES (Ind. Dem.), the SAVANNAH PRESS (Dem.), the SAUNDERSBURG NEWS (Dem.), the LOUISVILLE COURIER-JOURNAL (Ind.), the MORGANTOWN NEWS-DEMOCRAT (Ind. Dem.), the BIRMINGHAM NEWS (Dem.) and the ABERDEEN WORLD (Rep.).

## The World AND THE Mud Puddles

Fifty-first installment of a Diary kept by Lawrence A. Wilson, of San Diego, California, upon his visit to Russia in 1928, published exclusively in The New Castle News.

GREAT BRIDGES.

August 23, 1928. We have been running slowly and carefully all night. The engineer is evidently fearful of plots to wreck the train. We have crossed several great rivers. Before crossing the bridge our train has stopped and trainmen have gone ahead to examine the structure to make sure that it has not been tampered with. It has not been long since the trains were tied up each night until daylight would allow them to proceed with a measure of safety. At each bridge head, all the way from Moscow, there have been fortifications and machine guns, wire entanglements and machine gun emplacements. Forward squads of the Red Guard have been on the watch at both ends of all the bridges. It seems that even now bridges are being blown up, as the old die-hards are resorting to isolated and desperate endeavors to cripple the Soviet System. I understand that time bombs have been dropped from the windows of railway cars as they crossed bridges. So there are now strict orders to keep your heads inside while we cross rivers, on the penalty of having them shot off by the Guards. I keep my head inside. I would hate to act on the assumption that those fierce-looking Red Guards would devote one iota from their orders in my favor.

Now we have just crossed the great bridge spanning it is nearly a mile long. And underneath it is all water! Running swift and deep. Here are scores of boats with their tall masts and funnels. They must hurry now to get them down to meet the ocean-

## Bible Thought For Today

A Great Invitation—Come unto me, all ye that labour and are heavy laden, and I will give you rest. Take my yoke upon you, and learn of me; for I am meek and lowly in heart: and ye shall find rest unto your souls. For my yoke is easy, and my burden is light.—Matthew 11:28, 29, 30.

Prayer: "Lord, let me see Thy blessed face. Thy rest, Thy love, Thy glory share."

## CITIZENSHIP AT A PRICE

In the old days it cost the alien \$5, in all, to go through the red tape required to become a citizen of the United States. The last congress boosted that figure. It now costs \$20, at the least, and \$35 if the alien in question came into this country before June 3, 1921.

Thomas B. Shoemaker, assistant commissioner of naturalization, regards this as a moderate fee. Says he:

"It seems to me that \$35 is a small fee for the chance to become a citizen."

Well, yes and no. Perhaps if the alien is strictly on the make, if he came to this country for purely business reasons, he will regard \$35 as a small entry charge. Occasionally one reads in the paper that some farm boy from Russia has just bought a \$2,000,000 apartment house and expects to build four more like it. To charge such immigrants \$35 is poor business. The percentage is too low.

But there are immigrants who never make fortunes; who like most Americans, work hard throughout their lives and barely manage to make both ends meet. To them the charge of \$35 would seem to be a hardship. Perhaps there should be some sort of sliding scale in this matter. Senator Smoot could doubtless work one out.

But it seems to us that Mr. Shoemaker makes a mistake even to attempt to put a price-tag on the privilege of American citizenship. If citizenship is cheap at \$35, what price should be placed upon the right to be born here? What does Mr. Shoemaker think would be a good price to pay for an ancestry reaching back to the revolution? What is his quotation on a college education or a pure heart?

And does it affect the market to print the news that entry into Heaven is wholly free?

QUESTION FOR MR. FORD  
Mr. Edison, if he didn't invent the questionnaire, at least brought it into use. Mr. Ford and Mr. Edison are close friends. So we take it that Mr. Ford is accustomed to the Edisonian method and, therefore, will submit amably to questioning by Borough President Harvey of Queens.

This division of the metropolis, it appears, has a problem. In short, Queens doesn't know what to do with its discarded automobiles. They are abandoned in such numbers that they litter vacant lots, even some of the streets. President Harvey properly is concerned. So he writes to Henry Ford as "the most prolific producer of automotive equipment in the world," tells him most about "this Frankenstein monster" and asks inferentially, what Mr. Ford is going to do about it. He thinks the Ford company "should bear a large part of the responsibility for the elimination of the abandoned car problem." And this problem, if allowed to grow, the president of Queens borough tells the automobile manufacturer, will in time tax the resources of the nation.

For the peace of mind of Mr. Harvey as well as for the good of the nation's back, which always is bending under problems, most of them placed there by problem hunters, we trust Mr. Ford will be able to answer the question from Queens. If it stumps him, we can only suggest that President Harvey call a congress of junk dealers.

A PROBLEM FOR PRESIDENTS  
Shortly before his term came to a close President Coolidge called attention to the need of a summer White House, near Washington, but so situated that it would offer escape from the heat of the capital.

Congress accepted the suggestion, with much better grace than it had many others emanating from the same source, and voted \$48,000 for the transformation of Mount Weather, a disused Weather Bureau station in the Blue Ridge Mountains.

When summer rolled around, however, there was a new President in the White House. And Mount Weather made no appeal whatever.

During the campaign Mr. Hoover had adopted only one "character" costume. It was that of a fisherman and was natural, for Mr. Hoover is undoubtedly an enthusiastic angler.

He went to the Blue Ridge Mountains, but not to the top. He stayed down where the rapids runs and where the fishing is sporting.

Now Mr. Hoover proposes to turn over his fishing camp, which he has built partly at his own expense, for the use of his successors.

So now there will be two summer White Houses reflects the Philadelphia Record.

Suppose, though, that the next president is an enthusiast for seaside sports. Naturally he will wish to summer by the ocean.

The question that will then arise is whether congress should provide him with a quiet resort as it did on Mr. Coolidge's suggestion, or whether he should equip one himself and then, his term finished, turn over the property, improved with the assistance of his week-end guests, to his successors. These contradictory precedents are liable at times to grow into awkward presents.

400 MILES AN HOUR  
One can't imagine the sensation of traveling at the rate of 400 miles an hour. And most of us have no desire ever to realize how it feels to be carried through the air at such speed.

Still, that is the rate of speed which one sees by the paper will be required to win the Schneider cup races on September 7th. British observers made that forecast the other day after witnessing the test of Britain's newest contender for the honor of representing the royal air force—the S-6, a supermarine Rolls-Royce monoplane. This craft attained an estimated speed of 350 miles an hour. Its engine has a normal rating of 850 horsepower, but it has a secret system for supercharging that is said to be able to increase the energy to more than 1,000 h. p. The motor's twelve cylinders are arranged in two banks of six each.

Lieutenant Alford J. Williams of the United States navy is the entrant whom the British airmen appear to reckon with more than with any other country's entrant as the pilot who may turn up with a 400-mile-an-hour seaplane. And the betting odds in London show that there is serious expectation of such a plane being in the race. Despite the reported 350-mile-an-hour test of S-6, the London odds are three to one against a British winner.

Still, men have liberty to do as they please—assuming, of course, that they please to be decent.

Kids naturally believe in evolution, anyway. They think they're an improvement on the old folks.

The odd feature of the muster is that Mussolini got that way without buying a course in will development.

## Will Graduate Class Sunday

Sunday School Pupils At  
First M. E. To Be  
Graduated

Twenty-eight Sunday School pupils of the First M. E. church, will be graduated Sunday at the morning services.

Rev. H. C. Weaver, pastor of the First M. E. church, will deliver the sermon. The theme of the graduation exercises will be "Love."

Six members of the graduating class will take part in the service. Miss Ruth McComb and Miss Cecil Morris will speak from the theme.

Miss Louise Pink will give the scripture reading, and Eloise Berquist will make the prayer. A solo will be sung by Miss Katherine Preston. Walter Reneker will play several selections on the pipe organ.

Ribbon bearers have been chosen from the class of 1930. They are: Gladys Biddle, Virginia Hammond, Eileen Norris, Edgar Beal, Willard Irwin and William Wood.

Dr. W. L. Beal, superintendent of the Sunday School, will present diplomas to the following Bible students: Janet Kissinger, Eloise Cole, Mary Adams, Jeanne MacKenzie, Isabel Craig, Grace Brooks, Caroline Longstreet, Evelyn Burelson, Mildred Rogers, Marian Baker, Helen Smith, Doris Updegraff, Louise Pink, Alice Lucas, Ruth McComb, Katherine Preston, Marian Rhodabaugh, Evelyn Graham, Eloise Berquist, Kathryn Young, Elsie Masters, Levenah Steverson, Mary Bowman, Mary Jane Wood, Jean Hartman, Cecil Morris, Margaret Jones and Walter Reneker.

Teachers of the graduating class are: Mrs. DeLace Cole, Miss Wanda White, Mrs. E. F. G. Harper, Mrs. H. C. Stillings and Wilbur Baer.

Former New Castle Woman Recovering From Shock Of  
Plane Crash In  
Lake Erie

In a letter received by friends in this city today from Rev. Robert Little, former pastor of the First Presbyterian church, he states that his wife, who was in the plane crash in Lake Erie recently, and was rescued after being in the water for three hours, is getting along as well as could be expected, after the shock.

She is at the home of her brother, Dr. Bentley, at North Tonawanda, N. Y., recuperating, and will return to her home in Cedar Rapids, Iowa, as soon as she is able to travel.

Rev. Little left North Tonawanda last night for their summer home at Leland, Mich., and from there he will return to their home in Cedar Rapids. He will be followed by Mrs. Little as soon as she is able to travel.

Sixty Fourth Annual Reunion  
To Take Place At Central Church

Sixty-fourth annual reunion of one of the most famous organizations of the Civil War, the 100th (Roundhead) regiment, Pennsylvania Volunteer Infantry, will be an event of Wednesday in the Central Presbyterian church, better known to the survivors of this great regiment as "White Hall", it being the mobilization point for the regiment in the days of the Civil War.

The morning will be devoted for the most part to the registration of survivors and also all descendants of members of the regiment who are now eligible for membership in the regimental association. At noon a fine dinner will be served to the survivors of the regiment, who are in attendance, their wives and also the widows of members of the regiment.

The afternoon will be devoted principally to a campfire program, which is expected will prove most interesting to all.

## Tener Threatened With Pneumonia

Former Governor John K. Tener  
In Pittsburgh Hospital,  
Condition Not Critical

(International News Service)  
PITTSBURGH, Aug. 20.—Threatened with pneumonia in a hospital here the condition of former Governor John K. Tener, Pittsburgh banker and business man, was reported as "not critical" today. He was admitted to the hospital Saturday evening.

Tener, who is also a former president of the National League of baseball clubs, was taken to the hospital because of the absence of his family from the city, it was stated. Dr.

George W. Reese, of Shamokin, Pa., who played baseball with Tener at one time has been called to the bedside. Dr. Reese is superintendent and chief surgeon at the Shamokin State hospital.

Mrs. Tener is at the former governor's summer home at Salisbury, Mass.

### WE RECEIVE AN ANNIVERSARY PRESENT

Oh shock of shocks! within a box I found two pair of golf socks. And tied to them a card to say: "Best wishes to your wedding day! In three and twenty years of bliss My first and only gift is this!"

All other presents, need I tell Have been received by lovely Nell. They've given us handkerchiefs, and hose.

A painted bowl to hold a rose; A center-piece of Irish lace. A string of beads; a jewel case.

Through three and twenty lovely June's

They've given us wooden salad spoons, Initialed towels; picture frames And score pads for our auction games; A bed room lamp, a nightgown pink And soap containers for the sink.

My blessings on you sister fair, For you this is my evening prayer: "Good Lord, at night and through the day

Be gracious unto Florence May. The path she treads with blossoms strewn And let her fondest dreams come true.

"Make light her burdens, grant her wealth, Endow her with the gift of health, For once upon our wedding day She brought two pair of golf socks gay.

And wrote that they were meant to be An anniversary gift for me."

(International News Service)  
THE HAGUE, Aug. 20.—The committee of treasury experts appointed to draft a joint report showing the monetary differences between the conflicting viewpoints of Great Britain and the other reparations creditor powers adjourned today, admitting that a joint report is impossible. The Hague reparations conference, which was summoned to settle the remaining problems left over by the great war, was thus brought closer to the rocks of disaster.

## The World AND THE Mud Puddles

(Continued From Page Four)

going vessels at the point where the Ob empties into the Arctic Ocean, for it will not be long before the ocean itself will be frozen far out from the shore.

Here on the left bank of the Ob is the new Capital City, Novo-Sibirsk. In Russia today everything is "Novo," new. But this word presents a curious aspect, written in Russian characters. Our letter N looks like H in Russian and our V is B in Russian. So I am confronted everywhere with signs reading "Hobo." The cynical might remark that the word "Hobo" accurately characterizes Soviet life generally. But the salient fact is that it is all "Novo." It is still new, raw, in the making.

Novo-Sibirsk is one of the cleanest towns I have yet seen. But this, of course, is purely relative.

We come now to the junction town called "Taiga." The Taiga is the forest strip between the steppes and the tundras. To the north stretch the frozen tundras, whose soil never thaws except for a few inches on the surface. The average yearly temperature on these tundras is 33 degrees, just one degree above freezing for the average year around! Our guide book speaks of exceptional days in the middle of summer when the temperature reaches the "extreme heat" of 68 degrees!

From Taiga a branch line runs north to Tomsk, the "Athens of Siberia." Here is to be found the center of that culture which is almost as ancient as the culture of China.

Our train is running quite rapidly now. The road bed is smooth and firm. We have a double track all of the way from Omsk. If this line had been double-tracked at the time of the Russian-Japanese war, the story would have been a different one, and a short one.

We come now to Krasnoyarsk, on the banks of the magnificent river Yenisei. There are several rivers in Siberia which rank with the greatest

of the world, not only for length, but especially for volume of water.

All over the spacious floor of the station waiting room are here and there great heaps of humanity. Families of eight or ten are huddled on the floor, lying on mattresses and blankets, in which they are rolled up with bundles of clothing, household goods, babies, chickens, and effects. They are waiting for the "slow train," which carries the emigrant cars. Sometimes they come to the station several days before the arrival of the train which they are to take. But they make themselves quite at home on the waiting room floor. Their impervious stolidity is unaffected by any of the vicissitudes of such kind of travel. And at every station there are hordes of Siberian dogs, snapping at our heels, snarling if we turn on them. They are little removed from the great timber wolves which inhabit these taigas. In fact it seemed to me that most of them could not be more than one generation removed. They crowd around the dining car, which they quickly single out, and watch with greedy eyes for any scraps which the cook may toss to them.

The nations can't have parity if they aren't willing to pare.

# Alfred Stump, Jr., Writes Of Scout Trip To England

Alfred Stump, Jr., son of Rev. and Mrs. A. M. Stump, the former of whom is pastor of St. Paul's Episcopal church, sends an interesting account of the trip of the Lawrence county Boy Scouts to England, where they have been attending the world jamboree at Arrow Park, near Birkhead, England, in a letter written especially for The News.

His account of the trip follows:

"On July 20, at 11 o'clock, the S. S. Samaria left the Cunard line dock for Liverpool, England, with the 29 Boy Scouts of Lawrence county aboard. Going through New York harbor many of the scouts took pictures of the various boats the Samaria passed. We all saluted the Statue of Liberty as we passed, while many of us took pictures of it.

"We had our first meal on board at noon. At 6 o'clock in the evening all of us could see water and one or two ships to the rear of us. The first day the 'Cedric' and 'Duchess of York' were to be seen in the background. We had a fine dinner at 8:30 and rested on the deck until 8 o'clock. At that time we had our first campfire on the aft of the 'Cedric'. We were not the only Boy Scouts on the Samaria bound for England. There were groups on the ship from Ardmore, Okla.; Chicago, Kansas City, New York, Nashville, Tenn., and many other cities and states.

"The different groups were introduced to each other during the first part of the campfire program. During the second part, each group put something on the program. The Lawrence county group sang a song. After each group had given their stunt it was 9:30 and we closed the program.

"On Sunday, July 21, we went to a special scout service at 9:30 a. m. and the rest of the day we spent in looking around the boat and wrote letters. "On Monday, July 22, our group had a meeting with Mr. Calahan about the program we would follow from July 22 to July 29, on the open seas. After that meeting we had another one in regard to our national pageant to be given at the jamboree. Each group decided to take a certain part in it. Our group decided to take

the Indian parts. After the meeting some of us went swimming on the deck. For the campfire program the national officers had a contest to see which group had the best yell. We had a very good yell, but lost to Mount Vernon, N. Y. The prize was a large picture of the 'Samaria'. We are now using their yell at the jamboree.

"On July 23, our group had inspection by our patrol leaders at 8:45. At 10 o'clock we practiced for our part in the national pageant. After the practice we went swimming. It was nice for a change to go swimming in salt water. After lunch we had our meeting to decide what kind of a program we would have for campfire for Tuesday evening. We used the operation, which seemed very successful. After our part, different other groups gave their program and that ended Tuesday's program. We went 400 miles from Monday noon to Tuesday noon.

"Wednesday, July 24, we were inspected by the first mate of the boat. All the groups on the boat were inspected. Our group won over all the other groups. We were 1540 miles from New York at noon. "Thursday afternoon we visited the crew's nest. After dinner it started to rain, but it did not last very long. Just about the time it stopped raining, we ran into a fog bank, the first one we had since leaving New York. The fog lasted about four hours. After we got into the fog the ship went at half speed and the whistle blew three times a minute.

"At noon Friday, July 26, we were 2445 miles from New York. The fog had ceased but it was still drizzling and it was very cool. We had inspection at 8:45. Everyone practiced for the national pageant at 4 o'clock. After lunch we met the chief officer of the ship. Our group gave our pageant at campfire soon after 8 o'clock. Everyone was pleased with it. Our part was the last on the campfire. We closed the program by singing taps.

"At 10 o'clock Saturday morning our group went on a tour through the engine room. It took us about a half hour to go through. It was a fine interesting trip. All afternoon we looked for the coast of Ireland. At 7:05 we sighted the coast of Ireland. We had seen hundreds of sea gulls since noon. We passed two passenger ships going out to sea about 11 p. m. At about 11:30 we dropped anchor and a tender came from Queenstown, Ireland, for the passengers and automobiles to get off there. It was cold out in the rain watching them unload the automobiles with derricks.

"On Sunday, July 28, we packed all our equipment so that we would be ready to get off the boat at 6 o'clock. We sighted the coast of England at 4 o'clock. We docked at Liverpool at 5 o'clock, but it was 6

## Complete Plans For Golf Match

Sons Of American Revolution To Sponsor Field Club Meet On Friday

Plans are rapidly developing for the Sons of the American Revolution golf tournament to be held Friday afternoon August 23 at the New Castle Field club. The tee off will occur at 2 o'clock daylight savings time. Every golfer of the S. A. R. in this community and also those proficient golfers who are eligible to join the S. A. R. but who never have, are cordially welcomed and expected to participate in the tournament.

There will also be bridge for the ladies of the S. A. R. members during the afternoon.

Attractive prizes will be awarded in both golf and bridge. Dinner will be served later in the evening. Attorney Homer Drake is general chairman of the affair.

## Camp East Brook News

Camp days are busy days—beginning with camp camps, swimming, nature study, rest hour, handicraft, dramatics, folk dancing and ending with caps. Some very pretty bead necklaces and silver bracelets are being made.

Friday night the Robin Hood patrol made enough candy for the camp. It was served to them after dinner the next day. The campfires are especially interesting as some enjoyable stunts must be prepared impromptu. The site for the fires is a beautiful spot at the bend of the river made more beautiful now by the full moon.

Saturday night each patrol went with its own counselor on supper hikes, taking their supper to cook and going wherever they pleased. All were asked to prepare some stunt for the general campfire for which they were to be back at 7:45, daylight savings time.

Milk was served before they left and then the girls went happily off with their bags filled with buns, weiners, marshmallows, chocolate bars, graham crackers and matches. When they gathered round the campfire later and carried out the stunts the counselors were surprised at the results.

There is no regular schedule on Sunday. Most of the girls went to church under the chaperonage of Miss Pugh the director. Visitors were welcomed all day Sunday and many came. This is the only visiting day of the week.

Vesper services were held at the campfires.

These people who beef about postage stamps not sticking never tried to salvage one from some mail order concern's return envelope.

## A HAPPY REUNION

Peter had plenty to think about as he walked away.

"Certainly the Bees have strong ideas as to idlers," said he to himself. "They are against them, that's certain. One Queen may be plenty for a hive, but such waste of good husbands does seem a shame!"

Peter had gone some distance when he stopped beside the spreading roots of a great tree to think where he should go and what he should do next.

Suddenly he became aware of a buzzing somewhere near him. Before he discovered where it was, and why, a familiar small voice seemed to separate itself from the chorus and distinctly he heard the words: "Hello, Boy—Snail Killer, Rescuer of Bees, hello! Look up here, look up, I tell you!"

Bewildered, Peter whirled around and saw, half way up the tree trunk, his old friend Dawdler. The Dude looked as slick as ever. His hat was on at the same jaunty angle. Peter missed nothing except the cane.

"So you followed us," Dawdler was saying. "Faithful friend! Jump on my back and I'll give you a lift."

Peter did as he was told, and found himself skimming the air on the back of the good-natured Dawdler. "Hold tight now if you want to stay with us," Peter discovered he had become one of a huge ball of clinging Bees, swaying from the low branch of a tree. Looking hastily about, Peter's attention became fixed upon the figure of a life-sized man, as tall as the branch from which they were swaying, approaching. He wore a well upon his head, and in his heavily gloved hands he carried a hollow, bell-shaped something like the lid of a very large coffee pot, only it was made of straw.

Next: "Bees in a Bag."

## Japanese Pay Fine Tribute To Graf Chief

Dr. Hugo Eckener And Crew  
Feted By Japanese;

JAPAN OFFICIALS  
GREET COMMANDER

By JAMES R. YOUNG  
International News Service Staff  
Correspondent

TOKIO, Aug. 20.—Thrilled by the unprecedented exploit of the Graf Zeppelin, which has pioneered its way through alien skies more than half way round the world, Japan today paid honors and tribute to the masters who made the feat possible.

Dr. Hugo Eckener, commander of the Graf and the guiding spirit of Germany's aeronautical progress, was feted throughout the day. He was personally congratulated by the Premier Hamaguchi when he called at the prime minister's official residence to pay his respects.

Premier Hamaguchi, as well as all other Japanese notables from the imperial family down to the humblest clerks, are still marveling over the wonder-voyage of this mighty air cruiser. The prime minister talked with Dr. Eckener about the voyage, asking questions about certain phases of it.

**Eckener Given Cup**

The ministry of communications presented Dr. Eckener with a gold cup in recognition of the government's tribute to the skill and daring which has made the flight possible.

The crowning honor of all will come tomorrow afternoon when emperor Hirohito will give a party for 11 officers and passengers of the Graf.

The zeppelin is due to leave on her trans-Pacific voyage to Los Angeles at 4 o'clock Thursday morning.

## GRANT CITY

Preparations have been completed for a great homecoming to be held by the residents and former residents of Grant City at Muddy Creek Falls on Saturday, August 24.

Invitations have been sent to all former pupils of the Grant City school asking them to bring their families and attend the event. All former residents and their families and friends are also asked to attend.

The committee sponsoring the event has endeavored to get in touch with all who have ever attended or taught in the Grant City schools but any who have been overlooked by the committee are asked to attend regardless as they will be doubly welcome.

The school house will be open during the forenoon when former pupils can have the opportunity of recalling pleasant memories. At noon tables will be set and a noon meal served as to one's family. Following the dinner an impromptu program will be carried out followed by a business meeting after which the remainder of the day will be spent in reminiscing and making new acquaintances.

Chester Hunt is general chairman and Belle Brant, secretary. Other committees which have been named are as follows:

**Program tables**—James Kline, Chester Fisher, Charles Stickle, Gale Dean and William McCracken.

**Tables**—Mesdames Harry Dean, Harry Stoner, William McCracken, Herschell Dunn, John Minter, June Maxwell, William King, J. H. Morrison, Patrick McCormick, Edward McCormick, Jennie McCormick, Joseph Shorl, Frank Patterson, Gale Dean, Frank Cooper, John McCormick, Guy Wimer, James McClymonds, Chester Hunt and Misses Sara Gill, Dora Elight, Edna Fisher, Mary Gault, May Book and June Book.

**Coffee**—Mrs. James Kline and Mrs. Roy Stickle.

All those attending are asked to bring well filled baskets and their own silverware and cups.

Still, it's our distressing conviction that when the meek do inherit the earth the wife will insist on having it put in her name.

Our own opinion is that open defiance of law began when the first pop bottle was started in the general direction of the umpire.

## Bo-Broadway

by JOSEPH VAN RAALTE

By Central Press.

NEW YORK, Aug. 20.—The charm of the burlesque theater always has been its casual and unpretentious slant. There is nothing subtle about burlesque. It's as obvious as a comic strip—frank as a stenographer's lip rouge. Thus, the other day, at the Columbia Stock, the chorus girls were introduced one by one on the stage to the audience before the shindig started.

The Out-of-Town-Man-About-Town it seems, persists in the old pastime of sending gifts back stage to his favorite member of the ensemble. Not knowing her name, and depending solely upon description, much confusion ensues. And why court confusion when it can be dispensed by so simple expedient as an introduction?

After a while it will probably reach the point where the girls will wear numbers on their back, like football players.

After attending a couple of the current Broadway reviews you realize that nothing is too cheap, too low or too preposterous for a tryout on The Lane.

**IRV. COBB'S FOND WISH**

The bunch at the Newspaper club were swapping yarns the other night and Charley Macaulay, the Brooklyn Eagle's great cartoonist, recalled the time when Charley Chapin, city editor of the Evening World, now serving a life sentence in Sing Sing for the murder of his wife, was sent over for several days to "discipline" the staff of the Morning World. Charley was indignantly proud of the title the staff had bestowed upon him, of "Simon Legree."

Irv. Cobb sauntered into the office one morning and noting that Chapin was absent made inquiry as to his whereabouts. He was told The Boss had gone home ill.

"Good Lord!" said Cobb. "I hope it's nothing trivial!"

WILL THERE BE A FUNERAL?

Charley Bayer, metropolitan reporter, pulled a somewhat similar line on the auditor of the World. Charles, at the time, was lending lustre to the World staff and in common with the rest of the bunch entertained a profound contempt for the penny-parsing tactics that made Browns, the auditor, as great in his line as Bayer was in his.

Browns was absent one day when Bayer sought him, and being informed that the watchdog of the World treasury was quite ill, casually inquired:

"Is there any danger of his recovery?"

**TRAGEDY IN THE CHORUS**

There's a lot in knowing when to

hills, trees, and high shrubbery that will cost the best player many a stroke.

Here 'Tis

If you are interested in the new course perhaps a thumbnail description of the 13 holes ready for play will interest you. If it doesn't there is always the privilege of playing with the baby or going down to the corner and arguing with the boys in the back room.

Number one. Three hundred sixty yards. For fifty yards from the tee there is plenty of rough grass and a topped drive will mean trouble. The fairway is a sloping one, with a road-way to cross, and then up a sharp incline to a rolling slope guarding the green. The pitch shot to the green will have to be accurate.

Number two. Three, four, five, and six are not ready and will be passed.

Number seven. A nice iron shot 163 yards down hill, but we bet the lad who bites in with his iron. The tee shot is bound to get a run down the hill, and just back of the green is a line of trees that will cause trouble to the long shot.

Number eight. Not a bad hole, three hundred yards long with the fairway on a side hill sloping to the right. The sheer will have his hands full with this hole. A ditch is to be crossed about 200 yards out. The green is in splendid shape, one of the prettiest on the course.

Number nine. One hundred seventy-five yards, up grade, just a nice healthy mid iron shot, to carry up the hill. The green is on the top, in front of the clubhouse and looks like an old established green. This hole should be a fairly easy par three.

Number ten. Three hundred yards. Down a rolling fairway that has as many undulations as a roller coaster, and then just short of the green a young ravine that will get the long driver just as his ball is finishing his flight. From the ravine you can pitch up to the green and this green is also in pretty shape.

Number eleven is a dog leg to the left, 207 yards long. From the tee you cross the ravine mentioned in number ten and there is also a road to cross. Not a bad hole but a sporting one.

Number 12. One of those nice lady like holes, 150 yards down a grade and up to the green. Will prove treacherous to the ball that runs, but with any back spin can be held on or near the green. A pretty hole, and an easy one.

Number 13. Here is a hole that the lad with strong wrists will enjoy. Six hundred sixteen yards long, plenty of rough to cross, a ditch to cross, and a slight dog leg to the left. The last 150 yards is up a sharp hill with the fairway narrowing out and the last 100 yards will require skill to keep the ball on the fairway. The green is at the top of the hill, not a bit green, and while this will probably be a par five, yet it will be acceptable to most any one to get a six on it. And if your ball ever slices or hooks, you have trees trapping it.

Number fourteen. A sporting hole,

377 yards long, with a dog leg to the right, skirting a copse of trees and running down hill with the green in a tricky depression. One of the sportiest holes on the course.

Number fifteen. Another down hill hole, 432 yards long, with a ditch to cross and a line of trees to get through or over. Rolling fairway all the way to the green.

Number sixteen. Really the same as fifteen, in reverse. Up hill 435 yards, with the same ditch to cross and the same line of trees daring you to come on.

Number seventeen. Without doubt the meanest hole on the course. Only 95 yards long, but all the trouble in the golf bag waiting you. To par it, you must put a high ball dead to the green. Place a runner up there and its over the hill. Hook it and you are in trouble in heavy rough. Slice it and you are down in a heavy rough depression. And from the tee had put it looks like somebody had put all the rough grass in the world on it. Pleasant to think of it.

Number eighteen. Just 308 yards straight for the clubhouse, with little trouble in between. Rolling fairway, none of the rolls bad, with a nice broad green waiting for you to hole out. A pretty hole to finish the day.

To the players who use the course this year, remember that no golf course is smooth the first year or the second year. One must remember that golf courses are not smoothed out in a month and there is some ground out there that has given trouble. A swamp has been drained, tough brush has been cut out, and the fairways are not yet smooth. But looking at the municipal golf course with an eye to the future, it is no exaggeration to say that it is a splendid layout, one that will in time be one of the finest in this part of the state.

port, such as the record-breaking performance of the St. Louis Robin.

**Prove Possibility**

By flying great distances across the country for their refueling contacts, the crew of the "Sun God"—Nick Mamer and Art Walker—definitely established that it will be possible for transport planes of the future to carry passengers and freight for indefinite distances without being forced to land to take on fuel and supplies.

Moreover, the "Sun God's" feat forecasts the eventual use of the refueling principle by all of the great American aviation companies who are now operating passenger service lines.

**Hazards Reduced**

It was pointed out by one authority that the success of the "Sun God's" flight reduces to a minimum the hazards of ocean flying.

"The big danger in ocean flights," this man said, "is the way a plane must be weighted down by an almost

## Policeman Wounded, Negro Dead, Result Of Fight In Home

Negro Goes To Home Of Friend  
To Start Trouble, Is Fatally Shot In Gun Battle

(International News Service)

PITTSBURGH, Aug. 20.—Pittsburgh man Albert Mueser, 34, is in a hospital here today with wounds in his right shoulder and side, and Robert Johnson, 24, negro, is dead, the result of a gun battle between Johnson and three policemen who were called to a house when a disturbance arose.

Johnson went to the home of Mrs. Elle Hughes where he threatened John Wilson, 40, another negro. When Mrs. Hughes called the police both fled and Johnson fired several shots at Mueser, who followed. Just after Mueser fell another policeman fired a shot which struck Johnson in the head. Both injured men were taken to the hospital where Johnson died an hour later.

Police are seeking Wilson to learn more of the cause of the trouble. It is believed Johnson was crazed with moonshine or drugs.

A necessity is a luxury the Joneses have.

Governor Fisher Decees October 1 To November 15 As Official Inspection Period

TO NAME STATIONS HERE FOR TESTS

According to word received by Bernard N. Hanlon, manager of the New Castle Motor club, the period from October 1, to November 15, 1929, has been designated as "Motor Vehicle Equipment Inspection" period under a proclamation signed by Governor John S. Fisher.

Governor Fisher calls on all owners and operators of motor vehicles to have their cars inspected during the act of assembly approved May 1, 1929, and upon learning of any defects in mechanism or equipment or the improper adjustment thereof, to have such defects eliminated and such adjustments corrected immediately.

Governor Fisher also calls on all police officials of the Commonwealth to assist the Department of Revenue in furthering this safety movement and in lending their assistance to the end that all Pennsylvania registered motor vehicles may be inspected and brought into conformance with the law.

**Plan Is Success**  
The success of the plan for an inspection of the safety factors of Pennsylvania registered motor vehicles was evident in April, 1928, by the cooperation from the automotive industry and other organizations interested in the saving of human lives, and reduction of automobile accidents, and the response of the general motoring public.

The results obtained were of such character, and reflected such a lack of careful and regular attention to equipment, that the 1929 General Assembly was impelled to give the governor authority to proclaim compulsory inspection periods, during which every owner of a motor vehicle registered in Pennsylvania must submit that vehicle to an inspection at a designated official inspection station.

Furthermore, it will be unlawful to operate an uninspected vehicle during the 30 days following the inspection period, and any attempt to do so, will be followed by arrest.

Official inspection stations will be appointed only after they have signified their intention of assisting in this worthy safety movement. Such stations as are appointed will first be examined by the State Highway Patrol to ascertain their fitness and general reliability and will thereafter be authorized to inspect the motor vehicles brought in during the campaign. If machines are found to be unsafe and unfit for operation, it must be put in safe condition, or reported at once to the commissioner who will, under his authority, take steps to withdraw the registration.

It is understood however, that any motor vehicle owner is free to select his own official inspection station, and it is not obligated to have needed work done at the station, where the inspection was made, unless he so elects.

Certificates of appointment, certificates of inspection (windshield stickers), display posters and report forms will be furnished by the department after station appointments have been made, and additional supplies will be forwarded as required.

It is expected that the official inspection stations in the local area will be announced to the New Castle Motor club in the near future, so that all auto owners may know where they are located and be prepared to avail themselves of the inspection service offered.

**Inspection Details**  
Inspection details will require the following:  
Brakes—Stopping distances of 20 miles an hour. All vehicles except commercial trucks and truck tractors, exceeding 7,000 pounds, must stop within 50 feet on application of foot brake, and within 75 feet on application of emergency brake. Commercial motor vehicles and truck tractors, with semi-trailers attached, exceeding 7,000 pounds must stop within 50 feet, with service and emergency brakes applied simultaneously, and with service and emergency brakes applied separately, must stop within 75 feet. Test stops are to be made on a hard, dry, level road.

Horns—Signal must give sufficient warning when button is pressed. (Sirens, compression, or spark plug whistles, as prohibited by vehicle code, should be removed and replaced, except on fire, police, or ambulance equipment.)  
Steering apparatus—Wearing parts should appear to be sufficiently strong so as not to indicate any possibility of breaking under ordinary conditions, thus causing an accident.

Mirrors—Pennsylvania law requires motor vehicles to be equipped with mirror so placed as to give rear visibility when the motor vehicle is so constructed or loaded as to prevent

the operator from obtaining a view of the highway to the rear, by looking backward from the operator's position.

Lighting—Lenses and reflectors must be legal and correctly installed. Burned out or inefficient bulbs must be replaced. Glaring lights must be adjusted. Beam must not rise above line at height of center of headlight at a distance of 25 feet. Where lamp centers are higher than 42 inches above the level floor, the top of the beam should not rise above a horizontal line 42 inches high at a distance of 75 feet ahead of the vehicle. Rear light must be plainly visible and rear registration plate illuminated by white light.

Windshield Wipers must be workable.  
License tags—Must be securely fastened in such a position, front and rear, that they are clearly visible and legible, and not obscured by bumpers, fenders, or other accessories, at a distance of 50 feet.

## Open Senior High Office Wednesday

Out-Of-Town Students Must Register At School By September 1

Out-of-town students who expect to attend the New Castle senior high school this term are asked to register at once if they haven't already done so. The high school office opens Wednesday morning at 8:30 o'clock.

Prof. Frank L. Orth, principal, announced today that all students must register. The office will continue open throughout the day till 4:30 p. m., with the exception of 12 to one o'clock, when it will be closed for dinner.

Schedules of study should be prepared in advance of the opening and should there be any who have so far neglected to do this immediate action is advised. All students must be registered and have their program of study arranged by September 1. School opens on September 4.

## Will Choose Red Cross Secretary

A special meeting of the board of directors of the Lawrence County American Red Cross has been called for Wednesday evening, Aug. 21, at 7:30.

The board will select a new secretary to fill the vacancy of P. J. Dempsey, whose resignation was accepted at the last meeting. Dempsey will assume a Red Cross position in Montana.

## The Way OF THE World

By GROVE PATTERSON

### THE GREATEST ASSET

President Hoover keeps in mind the "nation's greatest asset." The nation's greatest asset is its children. Plans are under way for a new White House conference a year or more hence on child health and protection. The president rightly reckons that this is more important than conferences on foreign debt, or farm relief.

### MEMORY

A thoughtful writer says a foggy memory that closes in behind us and shuts out experience is about the worst thing that can happen to us. Memory for most of us is not more than 10 per cent efficient. Memory is not merely a gift. It can be trained. It can be improved, made workable, perfected. "The way to train memory is to use it, depend on it, believe in it. Don't be afraid of your memory. Don't be saying, 'I can't remember like I used to. I'm no good remembering things.' That's to put yourself in a weak, dangerous, futile frame of mind. Believe in your memory, use it, depend on it. Make it serve you."

### BRIGHT DAYS

Charles Beeson, five-year-old Arkansas boy, reads story books. He also reads Plato, the classics, the encyclopedia. Charles prefers heavy reading to story books. Hearing this, people will say Charles is a freak. Not at all. Hundreds of boys could do the same thing if their education began soon enough and proceeded in an intelligent manner.

Charles' father is a college teacher and he knows something about education. There would be many brighter boys if their parents knew how to handle them.

### THE GREATEST HONOR

A great honor has been conferred upon Miss Susan Reed Howland, retired missionary. The council of the South India United church, at its last meeting, adopted this resolution: "Resolved: That this council confer upon Miss Susan R. Howland the honorary title of MOTHER, in recognition of the valuable services rendered by her in the training of good Indian mothers for our country."

And this is the highest title—honorary or active.

### PRINCIPLE

Adherence to principle may prove to have been of little practical value. Perhaps it will not prove to have been worth while as the world hastily judges such things. But adherence to principle, practical or impractical, does something definitely and permanently for character.

## Janitors Busy At High School

Janitors Busily Engaged Cleaning Interior Of High School

With two weeks left until school gets underway again the janitors of the senior high school are busily engaged cleaning the interior of the high school.

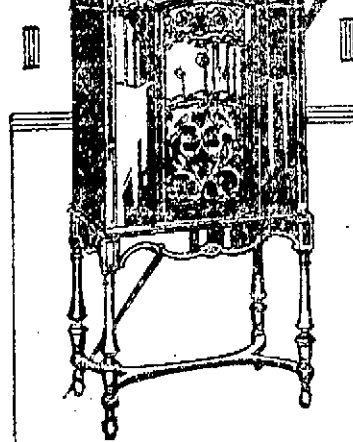

At the present time the auditorium of the school is being cleaned due to the fact that it will be used for the first few days of school. The halls of the school which have been painted during the summer months make a neat appearance. The halls will look even more attractive when they are decorated.

The office of the high school will open on Wednesday morning for the first time since the closing of schools. Any students wishing to discuss any questions as to their credits or schedules can do so from Wednesday until the opening of school.

"Women are more air-minded than men," says an airport official. Probably a reference to the fact that air changes constantly.

I Can Truthfully Recommend Thompson's Barosma, Kidney And Liver Compound As A Fine Medicine.

I can truthfully recommend your Barosma as a fine medicine and a cure for all you claim for it. I am almost entirely free from rheumatism and my general health is greatly improved. Sincerely yours, Mrs. Susan M. Lyons, Titusville, Pa.

All druggists sell Thompson's Barosma for \$1.00 a bottle and they say if it doesn't drive the poison from your clogged up kidneys; stop backache or siccachae, or banish female ailment, money back.

If you are feeling blue and run down, no doubt your kidneys are dying and you should not procrastinate. Hundreds probably are dying every day from kidney disease, simply because they didn't heed the danger signals.

Dizziness, specks before the eyes and that dragged down feeling are pretty sure signs of kidney trouble. Get a bottle of Thompson's Barosma and put your kidneys in a healthy condition in a few days.

If you are troubled with constipation always take Golden Lax Tablets (25c and 50c) along with Barosma.

There is no mystery to financial success. It is the natural result of thrift—systematic saving and sound investing. No matter how small your income, you can free yourself from future worry.

A home, an automobile, a trip to Europe, a college education for your children—any of the things you want to have or accomplish are within your grasp—if you start to plan for them today.

There are thousands of people now financially independent and enjoying the real comforts of life. But—they did not let their desire to be successful stop with thinking about it. They acted—made their plans and—they achieved it.

You can do the same in a way that has been tried and proved.

It is through investing the money you have put aside and a portion of your earnings in Cities Service Common stock.

Over 172,000 investors, small and large, have found in Cities Service Common stock a definite means of accomplishing their objectives. Cities Service has been good to its stockholders—it has rewarded their confidence time and time again.

Cities Service subsidiaries supply the very things you, as well as millions of others, buy and use each day in steadily increasing volume—electricity, natural and manufactured gas, and petroleum products, including oil and gasoline.

The soundness and diversity of this business is a constant protection to your investment. Profits and dividends do not depend on conditions in any one industry—your income is not dependent upon the sale of any one product. That is why Cities Service Common stock, on which dividends are being paid monthly, yields its holders a substantial income—over 6 1/4% annually at the current market price.

Since January 1, 1929, over 70,000 new names have been added to the list of Cities Service Common stockholders. They have confidence in Cities Service to make their tomorrows come true. You can start right now to realize your real objectives in life—simply by mailing the coupon below which will bring you an interesting free booklet telling you more about this sound investment.

## LIEUT. WILLIAMS MAY NOT ENTER England

Speed Ace Must Get Plane Off  
Successfully To Go To  
England

(BULLETIN)  
(International News Service)  
WASHINGTON, Aug. 20.—Unless Lieut. Al Williams, the navy's speed ace, can get his Mercury racing plane off the water in a successful test flight, the trim little speedster will not be sent to England to compete in the Schneider cup races.

This dictum was laid down today by Assistant Secretary of the Navy David S. Ingalls, after a series of navy department conferences in which Lieut. Williams participated. Only two days are left in which to make the tests if the ship is to be gotten to England in time for the cup races.

Williams contended unsuccessfully with his superiors that the plane should be sent anyway, and was deeply disappointed at the final decision. Title to the little speedster is somewhat clouded, it being claimed both by the navy and the Mercury company which constructed it. If this can be cleared up, the plane may be sent independently of the navy, it was intimated after the conferences.

## Pair Confess Stealing Auto Police Report

State Highway Patrolmen Kettren and Paul yesterday arrested two confessed automobile thieves near Harbor bridge, Youngstown road. They gave the names of Edgar Nelson, Albert and Charles W. Berry, San Antonio. They are being held for department of justice agents as the stolen car was operated between states.

The car is a Michigan Ford. The patrolmen were testing brakes and as the men had nothing to show ownership they were taken into custody and questioned. According to Kettren they confessed stealing the car.

## Japanese Beetle Has Not Spread To Lawrence County

U. S. Agricultural Experts Are  
Conducting Search For  
Pest Here

According to U. S. Agriculture Department experts no Japanese beetles have been found in the local district and strict quarantine measures now in force are expected to keep them from spreading to this district.

H. D. Esterline, William Hodas, Gordon Foster and G. Gwynn representatives of the U. S. Department of Agriculture are conducting an investigation in the local district following a recent report that the Japanese beetle had been seen here but the report proved false.

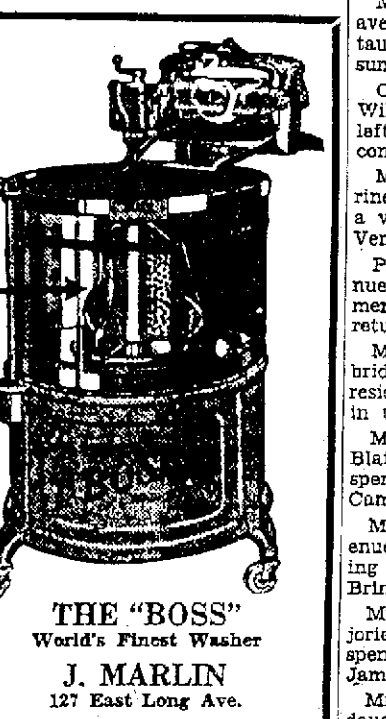

The Japanese beetle is one of the most destructive pests the government has been called upon to combat, the pests when swarming having been known to devastate an entire farm in two days time eating all visible foliage.

At the present time it has not been found west of Lewistown Pa. but the government experts are on the lookout for traces of it further west.

It is slightly larger than the common potato beetle but in no way resembles it. The head and upper part of the body including the legs are dark green in color while the wings are bronze. Two distinct white spots are visible on the body near the tail while smaller spots of a similar color are found along the body below the edge of the wing.

The beetle will be found first on grape vines while they are still congested on rose bushes. It prefers warmth and would be most apt to be noticed during the heat of the day and on external sides of the leaf.

Report that Japanese beetles were noticed here last week has developed that the beetles described were Mexican bean beetles.

## County Scouts Now Touring

Local Delegation Sees Sights Of England As Guests Of Government

## RAIN FINALLY ENDS AND SUN COMES OUT

By EARLE K. HERBERT. (Special News Correspondent.) ARROWE PARK, England, Aug. 9. —The Lawrence county Scouts together with other groups extended their tour of the beautiful city of Bolton. It is not noted for its castles, nor is it known for its ancient history, but for its present beauty alone. The entire group was entirely satisfied with this part of England life, realizing that there is plenty of scenery outside of the United States to fill a large book. Over winding trails and roads lined with flowers, through the northern part of Wales and a long walk, all added to the trip placing it firmly in the minds of the boys.

Surely the Lawrence county group will return to their homes with a wonderful impression of the lives and homes of these people who have shown us such an enjoyable time.

ARROWE PARK, England, Aug. 8. —One of the most enjoyable scenes of the entire trip was covered today on our tour of Liverpool and its surroundings. First we were taken to the Gladstone docks, the largest docks in the world and allowed to inspect a large boat of the Cunard line. We were shown the elevators in action, the large cranes on the boat and the repairs that each boat must go through before making a voyage. These docks cover 56 acres and extend along the coast for seven miles.

Our next step was to the Johnson dyeing works where we were shown the entire plant together with the processes by which dyes are made. We were taken to the straw hat department and there shown a number of ways our hats are made before dyeing. Nearly all the employees in this large establishment are girls. We were taken to the large town hall of Bootle and given refreshments. We were heartily welcomed by the Deputy Lord-Mayor of the city and each one allowed to visit the council chamber even being given permission to sit in mayor's chair. Oh how dignified the boys looked as they sat down and repeated "respite," "aspire" and "prosperity" which means "let us look to the past, the present and the future."

We were taken to the Liverpool Cathedral which is the largest of its kind in the world and which has been in construction for almost 21 years and is not near completion at the present time. It was a wonderful trip and enjoyed the Cathedral above all else so far.

ARROWE PARK, England, Aug. 7. —Today marked a great change at Arrowe Park. The sun has at last decided to shine and dry the mud that has made the boys miserable for the past fortnight. Not only that but the fact that the boys are now enjoying tours as the guests of the English government, has brought a much needed change to scouts. All day was taken up by a tour through the Crewe railroad works which is one of the largest of its kind in the world. We were taken through the entire works and each process explained. Although it is a mammoth place yet there is much hand work done in comparison to a similar works in the United States, where so many articles are machined at a rapid rate.

After the trip through the plant was completed the mayor gave a fine address for the benefit of the scouts and had the city serve a luncheon to the entire group. After the repeat souvenirs were presented to each boy by the mayor as well as a history of the works.

Many times on their return did the boys mention the enjoyable time they had on the trip. The group arrived back at camp in time for colors and camp fire. The spirits of the lads have revived considerably with the returning of the sun. As it now looks we may have prohibition for the next few days unless the politicians are able to bribe the weather bureau.

Crowds of visitors are again permitted to travel any part of the camp to view the scouts and their activities. They must all leave the park before 10 p. m. and all lights must be out at 10:15. This applies over the entire camp.

## Old Letter Recalls Camp Experience, Of Roundhead

Message Was Sent By M. B. Coyle To Sister During Civil War

MET HIS DEATH IN BATTLE SOON AFTER

Following is an interesting bit of information which tells of some of the activities of the famous Pennsylvania Roundheads during the Civil war. The remaining vets of the organization will hold their annual reunion in this city tomorrow.

The enclosed letter written by M. B. Coyle to his sister, Mrs. Roseanna Coyle Miller, may be of interest to the few remaining members of that once great fighting unit, the Pennsylvania Roundheads.

M. B. Coyle was born in Mercer county in 1835. He enlisted in the Pennsylvania Volunteers in 1861. He departed for the front with his company in August of that year. They started from "White Hall," where the Central Presbyterian church now stands. He fought in every battle his company, the "Fighting Roundheads," took part in and fell at Cold Harbor on June 3, 1864.

Andrew Rogers, another Mercer county lad, a neighbor of Coyle's and his buddy at the front, and who has recently told the writer of this article that Coyle was the bravest man he had ever known, that he absolutely didn't know fear, said the following: "The was fighting by my side," said Rogers, "when he fell. I helped him to the rear and leaned him up against a staunch bush. He was holding his hand over the bullet hole just below his heart. He told me to go back to the front as he said I couldn't do anything for him."

"I looked back once," said Rogers, "and he waved his hand and smiled. I never saw him alive again."

This article is written for The News by Mrs. Clara E. Stewart, a daughter of Roseanna Coyle Miller.

Following is an article written by Coyle to his sister then living at Beaufort, S. C.

May 24, 1862.

Dear Sister Roseanna,—I received yours of April 27, '62, and was very glad to hear that you are all well.

My health is good and all our companies are enjoying splendid health at present.

No, we do not suffer from the cold or hunger. We have plenty of food though it is a little rough and of no great variety. Still it might be worse than it is and we have not felt the cold much all winter. Our weather here is now about as warm as your harvest weather, except that we have a cool breeze most of the time which is favorable for us and makes it very comfortable.

There was very little snow here all winter. We have a pretty place for our company, the nicest we have had so far. We are pretty well shaded with large oak trees which look more like huge apple trees. Some of them are three feet across and they will average over 50 feet high and spread out like an apple tree.

They tell me there is a man coming now who has ripe plums, cucumbers, peaches and potatoes to sell, all raised at home. Such things are not new here. The corn here is as high as a man's head, even higher.

I long to see the children and all the friends. Mother I want to see especially. If Willie were older I know he would like to be a soldier and be here with me. And you are such a good little drummer you might be the drummer boy. Wouldn't you like that, Willie?

Tell the little ones to be good at home and at school, be good to father and mother and grow up to be useful men and women like they ought to be. We expect to take Charleston soon. Ever your brother,

M. B. COYLE.

## DISTRICT ATTORNEY PREFERS CHARGE IN SHOOTING OF GIRL

(Continued From Page One)

ards, Charles W. Hays and Ford Fulkerson.

Testimony Conflicts.

There was a sharp conflict in the testimony of the witnesses called. Genevieve Rich, the 11-year-old girl who did the shooting, insisted that she had shot but once, that she had carried little Olga to her mother, that she had never had the gun in her hands before and that she did not know how it was operated. She also insisted that Steffie Zamaek, the 10-year-old sister of Olga, was in the back seat with her when she fired at Olga in the front seat.

The testimony of the physicians was that two shots must have been fired as the wound in the left leg could not possibly have been caused by the same shot that penetrated the abdomen. Steffie Zamaek testified that she was in the front seat of the car and that Genevieve had fired twice. Mrs. Stephen Zamaek testified that she had seen Genevieve with the gun two days before the shooting, and that on that day Genevieve had tried to shoot the Zamaek dog. Genevieve was represented by Weingartner and Mercer. The Zamaeks were represented by Attorneys Clarence A. Patterson and Samuel L. Clark and the Commonwealth was represented by District Attorney J. Elder Bryan.

Ask For Juvenile Court.

The district attorney will urge that Genevieve Rich be tried in juvenile court. This will mean that no jury will be called, that the court will hear the case privately and hand down its opinion as to the guilt or innocence of the little girl and pass sentence if he so decides.

In the request the court room of Alderman Mantz was filled to capacity. Faces that spoke of Latin countries, faces that were those of Poland and Russia and the Ukraine, Latin and Slav interested either for the family of the Rich girl or the family of Olga Zamaek.

Coroner James P. Caldwell conducted the inquest and called Officer Criswell of the New Castle police force. Criswell testified that he had been riding out Cascade street when he saw the ambulance and fearing an accident had followed. He found that a girl had been shot at 640 Cascade street and going into the home next door found little Olga Zamaek on a table, bleeding.

Criswell then investigated the shooting and found that Genevieve Rich had done it. Later a brother of Olga's, Anthony, took him out to the garage and gave him the 22 calibre rifle which she had used. This had one empty cartridge in it. Criswell testified that Genevieve told him she had done the shooting.

Anthony Rich called. Anthony Rich, a 16-year-old brother of Genevieve, was called and said that the gun was his. He testified that on August 14 he and his mother had taken the smaller of two cars they owned and had gone down town to the Castleton hotel to see another daughter of Mrs. Rich who works there, and from there they had gone to New Wilmington to buy some chickens.

Anthony said he had come home with his mother and found that Olga Zamaek had been shot. He went out to the automobile and found his rifle on the seat of the car and fearing somebody would break it had taken it to the garage and placed it upon some rafters. He said that he had left the gun before he went to New Wilmington and that he had cocked and snapped it several times. He said that Genevieve had never had the gun in her hands and that he had never taught her how to shoot it.

Genevieve Rich was called next. She said that she was 11 years of age on the 16th of July this year and knew what it meant to swear to tell the truth. She was not sworn but testified. She said that she lived at 638 Cascade street and that on August 14 she had been playing with Steffie Zamaek and Olga, a younger sister. She said that she and Steffie had a nickel to spend and that they were going to the store when little Olga started to follow them. That Steffie didn't want Olga following them and that the two older girls ran back around the house and into the automobile of Genevieve's father which was standing back of the house. "She must have heard us laugh," said Genevieve, "for in a little bit Olga came up to the automobile and got into the front seat. Steffie and I were in the back seat. I told her I was going to shoot her and then I pulled the trigger once."

"Olga fell over in the seat and I carried her to her mother and then ran to get a doctor. We couldn't get the doctor in the telephone and then I called an ambulance."

Bright Witness. While the youngest is but 11 years of age, she was an intelligent witness and did not contradict herself at any point. She said she was in grade 6-B of the Rose avenue school. Because she was a potential defendant, the district attorney asked that Attorneys Weingartner and Mercer examine her first and they would cross examine her. This was done but the cross examination did not shake her story. She insisted that she had never fired the gun before and when presented with it she showed the jury how she pulled the trigger. Asked how the pumping mechanism of the gun worked she said that she did not know, as she had never fired it before.

Dr. H. E. Zerner was next called. Dr. Zerner was called on the case at approximately 3:35 p. m. on Friday, August 14. He said that when he went into the operating room of the New Castle hospital he found her in a condition of shock, and that she had an abdominal wound and a wound in her left leg.

Operation Necessary. The physician testified that her condition was such that it was necessary to open her abdomen in an effort to save her life. Upon opening the abdomen he found that a bullet had entered to the left of the midline near the breast bone just above the navel and had not followed the sheath but had taken a course towards the back coming out on the right side. There were two holes in the girl's stomach, and the liver had been torn for about four inches. Her condition was so serious that she died the following morning at about 5:00 a. m.

Asked about the wound in the left leg Dr. Zerner said that in comparison to the abdominal wound the leg wound was minor and they had paid little attention to it. He did say that in his opinion the wound in the left

leg could not possibly have been caused by the same bullet that pierced the abdomen.

Dr. Z. Nathan Stutz of East Long avenue was next called. He also testified to the bullet wound in the abdomen, entering near the mid-line and burrowing its way back through the stomach and the liver. Dr. Stutz testified that an operation was vitally necessary, and said that in his opinion if the girl had not died from shock, she would certainly have died from peritonitis had not the operation been done. When the incisions were made it was found that two holes had been torn in the stomach and the liver burrowed for about four inches. Dr. Stutz also testified that in his opinion it was not possible for the same bullet to have punctured the abdomen and wounded the left leg, the latter wound being through the sheath. No bullets were found by the X-Ray, each of them apparently going right through.

Steffie Zamaek Called.

Steffie Zamaek, age 10, sister of Olga was next called and her testimony paralleled that of Genevieve for a little way, and then diverged sharply. She said that a "lot of kids" had been playing with them up until noon and then went home to get their meal. Genevieve, Olga and Steffie were left to play and that later in the afternoon Genevieve and she (Steffie) had started for the store. Olga started to follow them and the two older girls had started to run away. They hid in the automobile in the back seat and then apparently Olga heard them laugh and came into the car with them, climbing into the front seat. Here the stories of Genevieve and Steffie differed.

Where Genevieve said Steffie was in the back seat at the time of the shooting, Steffie said she was in the front seat with her little sister.

"Genevieve pulled the gun from the back of the seat and said (to Olga) 'I am going to shoot you.' Olga said 'don't shoot me I never did you nothing.' I said 'I too' said Steffie 'and then Genevieve fired the gun'."

"When she fired the first shot I started to scream and got out of the automobile. As I stepped away I heard another shot fired. I cried and my mother came out. She picked up Olga in her arms, and took her into the house. Genevieve did not pick her up."

On the cross examination Steffie stuck to the statement that two shots had been fired and further said that Genevieve had said that her brother Tony had taught her how to shoot.

Call the Mother

Mrs. Stephen Zamaek, mother of the slain girl was called and her testimony was interpreted by Mrs. Joseph Pilch. Her testimony was to the effect that she had seen Genevieve on Monday previous to August 14, and that Genevieve had the rifle in her hands. Asked how she was doing with it Mrs. Zamaek said that Genevieve was trying to shoot the Zamaek dog.

Mrs. Zamaek also testified that she and not Genevieve had picked up little Olga and that a Mrs. Mudrak had gone for the doctor.

Mary Risko was next called and as she came to the witness stand to testify Genevieve Rich jumped up in her seat in the back and yelled "she wasn't there". The little girl was quieted down and Mrs. Risko sworn and testified.

She said that about seven or eight days before the shooting she had seen Tony Zamaek come home in the automobile with a colored man, about mid-day and that Tony had thrown his rifle on the porch of the Zamaek home where Genevieve and Rosie Rich were sitting. She said that Genevieve had picked up the gun and started pointing it and that Rosie had taken it off her and looked through it, saying it was empty. Mrs. Risko then described how Genevieve had worked the automatic pumping mechanism on the gun a number of times.

This completed the array of witnesses called and the jury filed out for its deliberation. After considering it for some minutes the jury came back in and recommended that the little girl be held for further investigation.

In the meantime the district attorney had apparently made up his mind to prefer the charge of manslaughter against the girl and so notified her counsel, Weingartner and Mercer. The bail upon which she had been held, \$1000.00, before Alderman William E. Marshall could not be accepted on the manslaughter charge as it is necessary to procure such bail through the court.

Bail was taken today and the little girl will be free until the case can be heard.

Makes Formal Charge.

Before Alderman L. C. Mantz today a formal charge of manslaughter was laid by District Attorney J. Elder Bryan against Genevieve Rich charged with the shooting of 7 year old Olga Zamaek on August 14.

Following the coroner's inquest of Monday evening the little girl was taken into custody again by Parole Officer Jack M. Dunlap, her previous bail of \$1,000 allowed by Alderman William E. Marshall not being good after the charge of manslaughter was decided upon.

Judge Hildebrand set \$2,000 bail for the girl and recommended that she be held for custody and this was arranged for by her attorneys, Weingartner and Mercer. She was released from custody shortly after the noon hour.

It is probable that this charge of manslaughter will not be heard by the public but will be heard in private chambers in juvenile court.

MARVEL CROSSON, AIR DERBY RACER, IS CRASH VICTIM

(Continued From Page One)

Three other aviators had made forced landings yesterday but escaped injury.

Miss Crosson was the only one of 15 pilots to fall to make the Yuma-Phoenix hop.

Her fall was witnessed by Frank Loydenacker, well known race hand at the Seaborn ranch and by a child of Mrs. Frank Spain, owner of the Wellton Hotel.

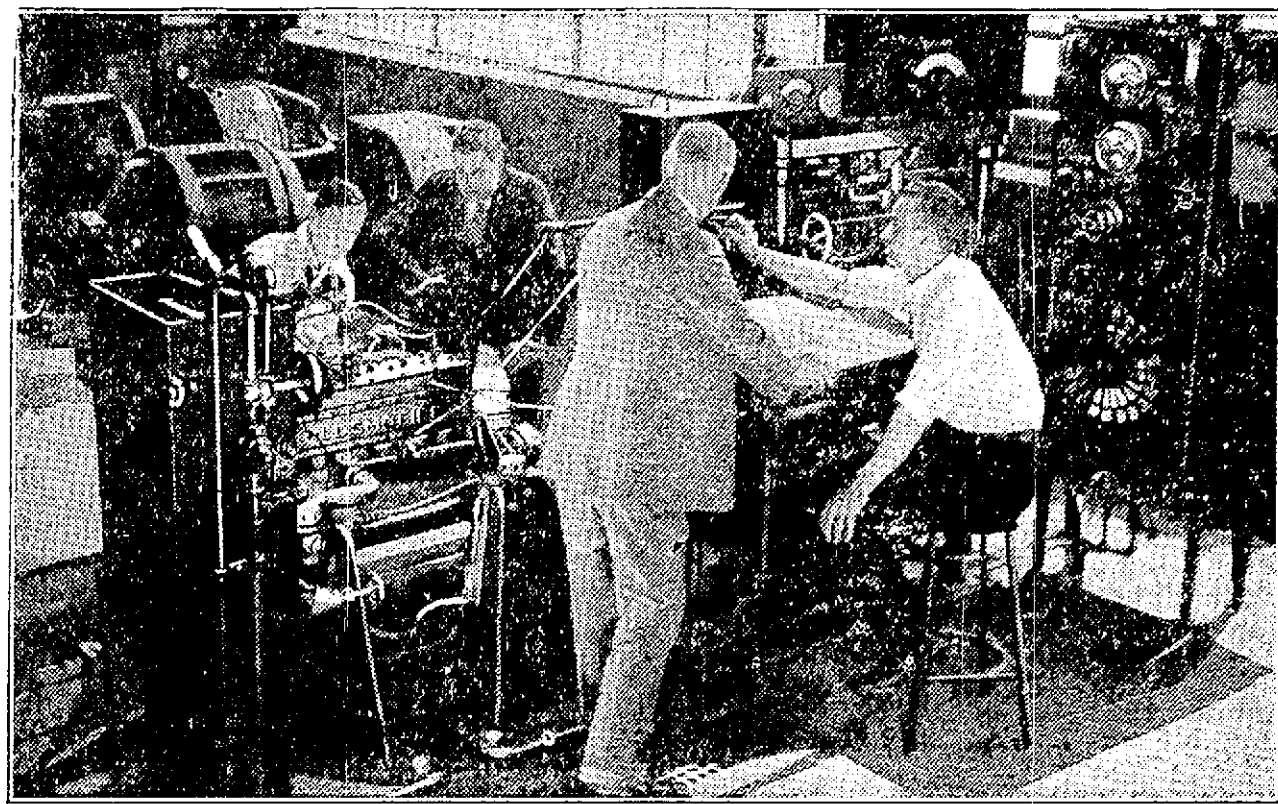

Twenty men sought Miss Crosson all night, keeping beacon fires burning in hopes she might answer with a bonfire.

Might Discovered

Deputy sheriffs were saddling up this morning to resume the search when Constable Victor Gall arrived with word of the discovery.

In 1915 Gall was the discoverer of two fallen army aviators, Colonel

# First Comes Sound, Progressive Engineering.

IN BUILDING a motor car, everything begins with engineering. No amount of pains in the selection of materials, no amount of skill in workmanship, no amount of care in inspection will take the place of sound, progressive design.

Oldsmobile recognizes this fundamental truth. And in order that its engineering may be of the finest, Oldsmobile has brought together a staff of talented and experienced men—and placed at their disposal every aid to modern engineering.

The creative thinking which makes Oldsmobile a car that does all things well is the product of a group which is not dominated by individual opinion. Any and every idea is given full consideration, so that the best may be selected through a long process of testing, proving, and comparing of results. Changes in Oldsmobile design are always made for the sake of progress—never for the sake of change alone.

On the Oldsmobile staff are experts in every branch of automotive engineering—men who have demonstrated creative ability along many lines. They are keenly sensitive to the requirements of the modern motorist. Their greatest joy lies in accomplishment.

Their highest ambition is to contribute some new advancement to Oldsmobile and, through Oldsmobile, to the motoring public.

At the command of these men are all the vast resources of Oldsmobile and General Motors. They work in their own complete and fully-equipped engineering and research laboratories, drawing upon the experience of General Motors Research Laboratories and availing themselves of the skill of Fisher artist-engineers. And day in and day out, Oldsmobile engineers prove their products by the facts developed in grueling tests on the great General Motors Proving Ground.

The ever-increasing success of Oldsmobile is evidence of the ability of these men. Brilliant engineering is responsible for Oldsmobile's efficiency and dependability—for its spirited performance and restful comfort—and for the low price at which these fine car qualities are available.

Oldsmobile is dedicated to quality manufacture, to honest advertising and selling, and to a broad, sincere service policy. But first of all, and above everything, Oldsmobile believes in sound, progressive engineering as the foundation on which to build.

## Many Merchants Will Close For Picnic Thursday

New Castle Business Section To Be Deserted During Afternoon Of Event

ARRANGEMENTS ARE BEING COMPLETED

Plans have practically been completed for the merchants of New Castle for the Merchants' first annual picnic which will be held at Cascade Park on Thursday August 23.

The picnic has been arranged as a joint venture by the Retail Merchants' Association, Civic Exchange and other business organizations of the city all of whom are co-operating to make it one of the biggest ever held in the city.

A great number of the merchants of the city have signified their intention of closing their places of business at noon on Thursday and it is expected that many more will fall in line so that the downtown section of New Castle will resemble the proverbial "Deserted Village" on the afternoon of the picnic.

Many Prizes. Prizes galore have been offered by the various merchants interested for the athletic and dance events which will be worth striving for.

This picnic is taking the place of a number of outings which had previously been discussed the grocers having originally planned a picnic for August 28 while the credit exchange members were planning a corn roast which was to have been held on August 23. By combining the two projects a mammoth picnic should result.

There is going to be one grand big time in store for everyone who attends the committee in charge announces. Cascade Park in its entirety has been taken over for the day and there will be free amusement tickets for the kiddies, swim-

ming will be available at a very nominal rate, the dancing will be free.

Expect 25,000. In addition to all the above 150 baskets of food worth five dollars each will be given away besides an electric refrigerator which will be drawn for on the grounds.

Festivities will commence early in the morning and will last until those attending are too tired to do anything else but go home. Topping off the program of the day will be a huge pyrotechnical display which will be the concluding feature of the evening.

All in all, it should be the biggest day that has been held at Cascade Park in some time and will bring hundreds of visitors from the rural districts in addition to the many thousands from New Castle. If the weather is favorable an attendance of at least 25,000 people is expected and that will be some crowd.

## Special Programs To Mark Event

Week Being Observed In Celebration Of Anniversary Of Payne Mission

In continuation of the programs which are being given each evening this week in connection of the fifth anniversary of the Payne A. M. E. Mission, the Woman's Home Mission will present a program at the St. Paul Baptist church, Tuesday evening, August 20. Rev. W. L. Engram will deliver the sermon.

## EDENBURG

### ATTEND FUNERAL

Mrs. Emerson Morrow and daughter Jessie were called to Slippery Rock Saturday to attend the funeral of her sister-in-law Mrs. Katharine Barron.

### CALLED BY ILLNESS

Mrs. Harold Park and son Robert have returned from New Port where they were called by the illness of her father David Hall who suffered a stroke of paralysis.

### ITALIANS HAVE CELEBRATION

A large crowd attended the celebration held by the Italians of this place in honor of St. Mary. The Duke of Abruzzo Band of Mahoningtown furnished music for the day. Boy Scouts, Queen Esther and others served refreshments during the evening. A fine display of fireworks closed the day. Italians from Hillsville, New Castle and Mahoning were present and enjoyed the day.

### STONER-COVER REUNION

The Stoner-Cover reunion was held at the home of Mr. and Mrs. George Kuhn, Wednesday with sixty five persons in attendance. Those from a distance were: Mr. Harry Cover, Poland, O.; Mr. Fred Peffer, Evans City, Pa.; Mr. and Mrs. Sam Cover, New Bedford; Frank Cover and family, Pulaski; Francis Kuhn and family, Pulaski; W. H. Cover, New Castle; Mr. and Mrs. Bion Cover, New Castle; Mr. and Mrs. Carl Cover, New Castle; Mrs. Vennor Bright, New Castle; Gran Matthews and family, Harbor; Bernice Steele and family, Harbor; Mrs. Grace Kuhn and son Joseph, Lowellville, O.; Gail McCleary and family, Lowellville, O.; Mrs. Clarence Campbell and daughter, Youngstown, O.; Mr. Joseph Andrews, San Antonio, Texas.

### YOUNG WOMEN'S SOCIETY

The Young Woman Missionary Society of the M. E. church met at the home of Mrs. Herbert Willey, Friday evening. The meeting was well attended and enthusiastic. After devotion, business and a short program the hostess served delicious refreshments assisted by Mrs. Marie Biddle and Mrs. Louise Wigton.

### QUEEN ESTHER

## Sinclair Oil Company Showing Fine Profit Minus "Guiding Hand"

Harry F. Sinclair, Reposes In  
Jail Cell, Company Goes  
Right Ahead

Figures Show 74 Per Cent  
Net Profit For First Six  
Months Over 1928

By JAMES L. KILGALLEN,  
International News Service Staff  
Correspondent  
NEW YORK, Aug. 20.—Although  
Harry F. Sinclair has been and still  
is in jail for defying a United States  
Senate committee, his company—the  
Sinclair Consolidated Oil Corporation—  
has been making money in a big  
way without his guiding hand and ex-  
pert counsel.

Figures just made public show that  
the corporation has improved its net  
profits in the first six months of 1929  
by 74 per cent over the corresponding  
period of 1928. Balance of net profits  
to June 30 this year, before taxes and  
reserves, total \$16,492,350 as compared  
with \$9,492,355 the first six months  
of last year.

Obviously, Sinclair's business has  
been doing mighty well during the  
"chiefs" incarceration. In recent  
months, it is announced, more than  
300 "bulk" and "retail" oil stations  
have been added to the Sinclair  
group in various parts of the country.

New Stations Opened  
New oil stations were located,  
largely, to inaugurate or extend fac-  
ilities in the Atlantic seaboard and  
southeastern areas where representa-  
tives previously had been rather  
meager. Considerable sums of money  
were expended in the acquisition of  
chains of retail stations to establish  
"key" positions in the centers of  
population.

All of which disposes, rather ef-  
fectively, of the rumors that were  
floating through the canyons of Wall  
Street a few months ago when Sin-  
clair was about to begin his jail sen-  
tence to the effect that the oil mag-  
nate was preparing to dispose of a  
great deal of his holdings. These  
rumors were promptly and officially

denied at the time but they would  
not down.

**Voted Confidence**  
A day or two before Sinclair went  
to jail, the executives at his main  
headquarters in Nassau street gave  
their chief a vote of confidence and  
pledged to work "harder than ever"  
while he was away. And, apparently,  
they did.

Sinclair was an indefatigable  
worker when he was on the job. But  
he was sagacious enough not to make  
the Sinclair Oil Corporation a "one  
man organization." When he left it  
was a smooth running machine that  
went along almost on its own im-  
petus.

It is a foregone conclusion that  
when Sinclair is released he will re-  
turn to his office in Wall Street and  
endeavor to erase unpleasant mem-  
ories by close application to the job of  
furthering the interests of his giant  
corporation with its offices and plants  
all over the world.

## COUNCIL OUTING OCCURS TONIGHT

Young People Of New Castle  
Churches Going To Boy  
Scout Camp

Members of the Young People's In-  
ter-Sunday school council, New Cas-  
tle district, will motor in caravan  
style to Camp John M. Phillips, Law-  
rence County Boy Scout camp, for the  
organization's annual outing tonight.  
Representatives of all New Castle  
churches will join together at the Y.  
W. C. A. front entrance and leave for  
the camp. Arrangements have been  
made for the entertainment of the  
guests at the camp.

In charge of the affair is Miss  
Elizabeth Woods, general chairman.  
Other committees are assisting her.  
Those desiring automobile transpor-  
tation to the picnic are asked to meet  
at the Y. W. C. A. entrance at 5:30  
o'clock this afternoon.

## Firemen Rounding Lawn In Shape

Firemen of the Eighth ward fire  
department are engaged at the pres-  
ent time rounding in first class con-  
dition the lawn which they believe is  
the best around the South Side sec-  
tion of town.

The lawn throughout the year is  
kept very neat and the firemen stated  
this morning that they are going  
to stick to the idea that they have  
the best lawn.

The firemen have preserved a little  
strip of land by the lawn which is  
used for flowers. The firemen during  
the summer months plant many  
varieties of flowers and plants.

## MYSTERY BUSINESS HEAD GIVES UP

Refusing to divulge the nature of the business he heads, which re-  
putedly pays dividends of 26 per cent annually, Elmer S. Huckins,  
of Hancock, Wis., has surrendered to federal authorities, charged  
with using the mails to defraud. Huckins' business is purported to  
have drawn an estimated \$8,000,000 in investments, without solici-  
tation, from hundreds of persons in the middle west. Huckins is  
shown, right, leaving the federal building at Milwaukee with his at-  
torney, Walter J. Bargrover, of Cedar Rapids, Ia., after he was  
arraigned and placed under \$25,000 bond.

A delegation of 60 boys of New Cas-  
tle are this week guests of the local  
Rotary Club at Camp John M. Phil-  
lips, Lawrence county Boy Scout  
camp, on the Slippery Rock creek.

Arrangements for the week's out-  
ing were in the hands of Scout of-  
ficials here outlined an attractive pro-  
gram for the week with every minute  
cramped with something worth while.

Scouts Bill Offutt, Tom Rambo and  
Tom Hawkins are in camp this week  
and doing their good turn daily by  
helping the other boys in various  
ways. At the same time they are  
completing merit badge work that will  
put them well on the way to the  
Eagle Scout rank by the time camp  
closes.

Rotarian Louis B. Round and wife,  
with Charles T. Metzler, visited the  
camp last evening and expressed to  
the boys their wish that they enjoy  
camp life to the highest degree.  
The boys who entered camp this  
morning are Louis Alex, Sam Albert,  
Harry Adams, Andy Adams, Nick Al-

## Three Youngsters Severely Beaten, Parents Sentenced

Find Youngsters Trussed Up To  
Floor, Large Welts On Backs  
In Jersey Home

(International News Service)  
JERSEY CITY, Aug. 20.—Three  
little brothers were in the S. P. C. C.  
Home here today, their wrists ringed  
with red from having been suspended  
from a door for seven hours to  
cure them of being "troublesome."  
They were Adolph Emil, Jr., and  
Louis Ihle aged 8, 7, and 5 re-  
spectively. Welts on their backs and  
blackened eyes told of the beating  
they received while napped to the  
door.

The father who trussed up the  
boys and beat them received a year's  
penitentiary sentence at Union City  
N. J. and the mother who asked that  
they be punished received six  
months.

## PLAINGROVE

**PLAINGROVE READING CIRCLE**  
The Plaingrove Reading Circle met  
at the home of Mr. and Mrs. Jay Mc-  
Cune Friday evening. This was mu-  
sical night. The program was in the  
hands of the program committee,  
which consisted of Mrs. A. I. Dick-  
enson, Miss Theo Pollock and Mrs.  
Ethel Pollock.

Song by Circle.  
Piano solo—Margaret Reynolds.  
Violin solo—C. X. Pollock.  
Vocal solo—Mrs. R. A. Stevenson.  
Instrumental solo—Mrs. Philo Rod-  
gers.

"Composers and Their Inspirations  
for Compositions"—Theo Pollock.  
Song by Circle.

After the program the hostess  
served a delicious lunch. There were  
about 100 present.

The special guests of the evening  
were N. A. Gardner and grandson,  
Dale, of New Castle; Kenneth Dight,  
James Stevenson, Mrs. M. M. Rodgers  
of Tennessee, Margaret Reynolds of  
Ellwood City, Mr. and Mrs. Roy  
Dight, Will, Anna Jean and Paul Of-  
futt of Indiana, Pa.

**PLAINGROVE NOTES**  
Mrs. Alice Palmer has returned  
from a trip to State College.  
Dr. J. E. Burton has returned from  
a trip to Michigan.  
James Stevenson and Kenneth  
Dight have returned from a Pitts-  
burgh visit recently.

John Cameron of Lisbon has been  
visiting at the home of Mr. and Mrs.  
Ray Foster.

Miss Margaret Reynolds of Ellwood  
City has been visiting at Mr. and Mrs.  
Ransom McNulty's.  
Miss Elizabeth McNulty and John  
McNulty have returned from a visit  
to Beaver Falls.

Miss Margaret Armstrong is at  
home after spending several days at  
Ellwood City.

Mrs. Guy McKee had the misfor-  
tune to fall off the porch and break  
both bones above her ankle in one of  
her limbs.

Mrs. Jess Hamilton and daughters  
motored to Greenville Saturday to be  
in attendance at the Wright reunion,  
but the strange part about it, there  
was only one man in attendance by  
the name of Wright.

Miss Lillian Patterson and Donald  
have been visiting in Portersville.

## Some Stocks Hit New High Levels

Steel, Telephone, American Can And Others Soar Today

### MARKET BRISK DURING FORENOON

By W. S. COUSINS  
International News Service Financial Editor  
NEW YORK, Aug. 20.—Stock prices ruled higher today in buoyant market which was featured by United States Steel establishing a new high mark for all time of 251 1/2 and other leading issues also moving into record ground.

Other stocks to attain new high levels were Allis Chalmers, which gained 23 points and soared to 310; American Can, which advanced a point to 183 1/4; International Tel. and Tel., which jumped 4 1/2 to a record level of 128 7/8; Public Service of New Jersey, which gained 1 3/4 and went to new high of 124 3/4; Bethlehem, which moved up three-fourths to 129 1/4; and Baltimore and Ohio, which advanced 1 7/8 to 139 3/4.

The market was brisk throughout the forenoon, sales up to noon totaling 1,972,700 shares as compared with 1,709,100 for the corresponding period yesterday. Prices were generally higher during the first hour, with U. S. Steel leading the way. This strength was maintained during most of the second hour.

However, shortly before noon profit-taking was attracted by the rapidity of the advance during the forenoon and reactionary tendencies developed in some of the earlier leaders. Steel Common sold off nearly two points from its high of 251 1/2 and similar setbacks were recorded in American Can, General Electric and other industrial favorites.

But the profit taking was well absorbed and the declines did not last long. In fact, a broad buying movement soon developed. Steel came back at 12:30 p. m. to 250 1/2, which was only a point below its previously established high mark.

Early in the afternoon the oil issues which had been inactive this week came into prominence. Leading issues in this group were the center of a heavy buying movement. Standard Oil of New Jersey advanced from a low of 68 3/4 during the forenoon to 72 3/4. Atlantic Refining rose from a low of 67 1/4 to 69 1/4. Sinclair Consolidated Oil came up from its low of 37 1/4 to 38 1/4. Other oils were correspondingly active.

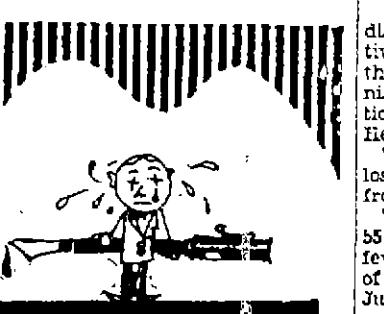

Rails were strong. Baltimore and Ohio advanced 2 points around one p. m. to a new high of 137 1/2. Atchafalaya scored a gain of 3 1/4 to 279 1/4. New York Central moved up 4 points to 246. The rest of the rails ruled from a fraction to three points higher.

The utility group was featured by the action of Public Service of New Jersey which gained 1 1/2 to a new high of 124 1/2. Rumors of a merger development were believed to be a factor in making this stock an attraction. Motors and copper were comparatively dull, maintaining their prices around last night's closing levels. Trading in both of these groups were featureless.

## Gas Company To Extend Operations

(International News Service)  
PITTSBURGH, Aug. 20.—Piling an amendment to its charter with the secretary of state at Harrisburg today the Manufacturers Light & Heat company of Pittsburgh, asks that it be permitted to extend its operations in natural gas supply to include Fayette, Somerset, Fulton, Franklin, Bedford, Adams, York, Lancaster, Chester, Delaware and Bradford counties of this state.

If the amendment is granted it is expected the company, which is a subsidiary of the Columbia Gas & Electric corporation with headquarters in New York City, will supply to a large number of new communities and markets in these counties, officials state. The Pittsburgh company recently acquired extensive pipe lines from the Southern Pipe Line company and the Pure Oil company.

## CANDIDATES DRAW BALLOT POSITIONS

(Continued From Page One)  
"pills." The equipment is most commonly used for the game known as "pea pool."

Another Sort of Gamble  
Call it an innocent gamble if you please, but if gambling it is, then the candidates are all guilty today for each one, or a representative shook the leather container and then rolled out the flat sided ball, looked at the number.

The first office drawn for was that of District Attorney. On the Republican ticket John S. Powers drew first place and Mont L. Alley second place. These are the only candidates on the Republican ticket. On the Democratic ticket Clarence A. Patterson has no opposition.

Then came Register and Recorder. Thomas Hamilton drew first place, Frank S. Breneman drew second place, Henry Dysart third place and Miss Jeanette Hutton fourth place. There are no Democratic candidates. Sheriff was the next office drawn for. In this drawing on the Republican ticket Mark Butler drew first place, George S. Kennedy, second; William G. Fleming, third; Edward Pritchard, fourth; Jack M. Dunlap, fifth; Frank S. Johnson, sixth; and William McK. Reynolds, seventh. On the Democratic ticket, William Hanna drew first place and Horace P. Stone, second place.

For Jury Commissioners on the Republican ticket John T. Young drew first place, Howard D. Leslie, second place; M. C. Kennedy, third place, and W. D. Williams, Sr., fourth place. On the Democratic ticket, William Newsbender drew first place and Charles Bohn, second place.

City Council  
In the race for city council on the Republican ticket, Louis G. Genkinger drew first place, Bes L. Luak, second place; John M. Gardner, third; D. O. Davies, fourth; Charles Henry Young, fifth; W. Stanley Trester, sixth; George M. Gibson, seventh; and W. W. McMillin, eighth. No Democratic candidates.

In the school director drawing for the six year term on the Republican ticket, Norman E. Clark drew first place; S. A. Weinschenk, second; Ethel Ashmore Douthett, third; Dr. W. D. Cleland, fourth; Albert W. Bauman, fifth and Joseph E. Ligo, sixth. For the two year term Daniel B. Woolcock has no opposition. No Democratic candidates.

For City Controller, on the Republican ticket, M. F. Melder drew first place, Phil Greer, second place and Wesley S. Rice, third place.

Other drawings then took place for aldermanic positions, for borough positions and places on election boards in the various precincts. The listing of the candidates as shown above is the order in which their names will appear on the ballot on September 17. Monday, August 19 was the last day for candidates to withdraw from the ballot, but no withdrawals were seen for the major offices named above.

## Ask Scoutmasters To Return Cards

Scouts And Leaders Will Go To Pittsburgh Ball Game August 23

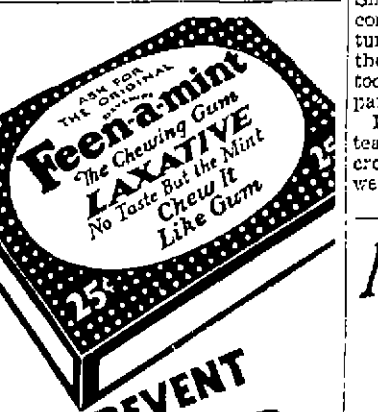

Scoutmasters of the Lawrence County Council, Boy Scouts of America, are requested to return the postal cards, to Scout headquarters not later than Friday, August 23rd, stating the number of scouts and scout leaders who will attend the baseball game between the Pittsburgh "Pirates" and the Chicago "Cubs" at Forbes Field, Pittsburgh, Pa. Scout headquarters must know how many are going to arrange for transportation.

No reservations will be accepted after 5 o'clock, August 23rd as the Pittsburgh Council must know the number of scouts and leaders who will attend the game from Lawrence County so they can complete their plans.

## Mortality Rate Here Low In June

## QUEER ELECTION TANGLE FROM ELLWOOD CITY

One of the queerest election tangles seen in this county for some time came to light today when Charles V. Patton of 523 Division street, Ellwood City, filed a petition with the Lawrence county probate court asking that a writ for preliminary mandamus, compelling the county commissioners to place his name on the ballot on September 17, for the position of justice of the peace in Ellwood City.

The facts of the case are these. Mr. Patton resides in that portion of Ellwood City which is in Beaver county. Because of the geographical location of this section, there is an agreement between Beaver and Lawrence counties whereby residents are permitted to vote for school and boro purposes in the Ellwood, Lawrence county, precincts. For county and state purposes they vote in Beaver county.

## Two Suicide Cases Reported Today To Uniontown Officials

Suicide Epidemic In Fayette And Greene County Is Growing Rapidly

(International News Service)  
UNIONTOWN, Pa., Aug. 20.—Two more suicides today had been added to the growing list of those who have taken their lives in this district during the last month. The latest deaths were those of Ezekiel Mountz, 76, of Grays Landing, Fayette county, and John O'Leary, 54 of Nemacolin, just across the county line in Greene county.

Mountz shot and killed himself this morning in the home of his brother-in-law, Sam Lemon, at Grays Landing. Lemon said that Mountz had been worrying about the condition of his wife who had been an invalid for several years. She and a son were in Uniontown when the tragedy occurred. O'Leary hanged himself from a rafter in the cellar of the home of D. A. McCordie of Nemacolin. His body was found by Mrs. McCordie when she returned from the grocery store. O'Leary, a boarder at the McCordie home, had used a chair to fasten the rope to the rafter and then had kicked the chair away. No reason could be given for his act.

## Burning Rubbish Calls Firemen

Firemen were called to the rear of the Pennsylvania Engineering works at 5:30 Monday afternoon by an alarm from Box 18.

Rubbish and debris from the plant had been piled on a vacant piece of ground along Nutt street and sparks from a passing locomotive are believed to have set it on fire. The watchman for the company was afraid that sparks might be blown onto a nearby garage and ignite it. The firemen laid a line of hose and quickly extinguished the fire.

## Man Is Scalded By Boiling Water

# Harry F. Sinclair Is Asking For Release

President Dudding, Of Prisoner's Relief Society Champions Parole

Says Multimillionaire Has Served Enough Time; Judge To Get Petition

(International News Service) WASHINGTON, Aug. 20.—The application of Harry F. Sinclair, multimillionaire oil king, for a commutation of his jail sentence was championed Monday by E. E. Dudding, president of the Prisoners' Relief Society.

In a letter to Attorney General Mitchell, Dudding declared Sinclair was "taking his confinement hard" and that he had had enough punishment. Asserting there were hundreds of men in Washington—some associated with the government—who were "mixed up in the Sinclair deal" and should be in jail, Dudding said: "I think that commutation now would meet with approval far and near."

The petition of Sinclair and H. Mason Day, his chief aide for executive clemency in connection with their release from jail where they are now serving 3 and 4 month terms respectively for contempt of court arising out of alleged jury shadowing during the Paul-Sinclair conspiracy trial, was referred by United States Attorney Leo A. Rover to Justice Peyton Gordon of the district supreme court for recommendation. Justice Gordon was United States attorney during the Sinclair trial.

As soon as the endorsement of Gordon and Rover is completed the petition will then be referred to Justice Frederick L. Siddons, who sentenced the oil men.

Justice Siddons is now in Haven, Me., and the recommendation will be forwarded to him. When he returns the petition it will be referred to the department of justice for recommendation to the president.

## Relief from Gas Stomach Pains Dizziness

The doctors tell us that 90 per cent of all sickness is due to stomach and bowel troubles. You can't be well if your digestion is bad; you are likely to get sick unless you relax food and digest it properly.

Tanlac has a wonderful record as a relief from digestive troubles, even those of years' standing.

Mr. Thomas Gihroy, of 182 S. Fillmore Ave., Scranton, Pa., says: "My stomach did not digest my food and I would get so dizzy. Since taking Tanlac, I feel like a different man. I enjoy my meals and dizzy spells have left me."

If you suffer from gas, pains in the stomach or bowels, dizziness, nausea, constipation, or torpid liver; if you have no appetite, can't sleep and are nervous and all run down, you need Tanlac. It is good, pure medicine, made of roots, herbs and barks. Get a bottle from your druggist today. Money back if it doesn't help you.

Its age is a private matter

It is very difficult to discover, by its appearance, how old a Lincoln is. Lincoln believes in making automobiles so beautiful that they are always modern—so durable that they simply won't wear out. The age of a Lincoln is no one's concern—least of all its owner's. On the boulevards a Lincoln of last season and the newest model share honors equally with Lincolns years older than either.

So fine is this car that a year or so of use does not perceptibly detract from any of its splendid qualities. Lincoln owners are often men who can and do provide the best professional care for their cars. Sometimes such well-kept cars are available at very attractive prices from Lincoln dealers. The wisdom of investing in such a motor car is quite evident, and shrewd buyers are quick to take advantage of the opportunity.

A few such Lincolns are now to be seen on our floor. Every one is in perfect mechanical condition. We are always glad to demonstrate them to you, without the slightest obligation. Drop in today.

## The Following Program Received Saturday Night, Aug. 17th, 1929 With Apex Radio Mentioned Above

Program picked up from Radio station KNX Hollywood, Cal. This station is only three meters from KRDL Dallas, Tex. Both stations were broadcasting at the same time and I was able to tune out KRDL Dallas and bring in KNX as follows, with good loud speaker volume.

Saturday night, August 17th, 1929. Time about 3:35 A. M. Eastern Daylight Saving Time.

Announcer announced the station and stated that the broadcasting station was located at the Sherman Oaks at Los Angeles, and was operated by the Paramount Picture Corporation. First request I heard was played for the three Band Brothers of Portland, Oregon. The announcer remarked about the peculiar name. An orchestra selection was played on a Brunswick record.

Next he announced a telephone call from Phoenix, Arizona, from Toley and Henry. An orchestra selection "Sleepy Valley" was played for them on a Brunswick record.

Announcer was changed. New announcer said his name was Ray Holley and his program was being broadcast by the London Dry Ginger Ale Co., of Bakersfield, Cal.

An orchestra selection was played for Tom and Viola, who had just arrived in Hollywood from San Francisco.

Played a selection for Betty Lawrence.

Played a selection for Roy Saunders.

Played a banjo selection.

Played "Maybe Who Knows," by Chas. Dornberger, orchestra selection on a Brunswick record.

Played "Rich Man, Poor Man, Beggar Man, Thief."

Played an orchestra selection "I Am In A Jail House Now," on a Brunswick record for Gertrude Jones. This was about 5:00 A. M., Eastern Daylight Savings Time. I shut off and went to bed.

## Hit-Run Driver Being Hunted

(International News Service) BLAIRSVILLE, Pa., Aug. 20.—A hit-and-run driver is being sought in this section following the death of Mrs. Henry Gunther, of Turtle Creek, Pa., injured when an automobile, driven by her husband collided with another machine and overturned. Gunther, who suffered minor hurts,

stated the accident took place when the other automobile attempted to pass his and forced him into an abutment. Police had been unable to trace the other driver who did not stop after Gunther's car crashed.

## Edge Acceptable France Asserts

(International News Service) WASHINGTON, Aug. 20.—The state department Monday received assurances from the French government that Senator Walter Edge (R) of New Jersey, would be acceptable as the American ambassador to France to succeed the late Myron T. Herrick.

## Shelby Wins Swim Tourney

Playgrounds Boys And Girls Compete Feverishly For Points In Splashy Tourney

ELLWOOD CITY, Aug. 20.—Re-deeming themselves for the poor showing they made in the Athletic Playgrounds meet last week, the Shelby contestants in the swim tournament romped off with 125 points Monday evening, against 24 for the North Side playgrounds and 16 for the Lincoln grounds.

A fair sized crowd gathered around the pool at the Shelby grounds Monday evening and watched the eager contestants as they swam, dove, Australian-crawled and seemed perfectly at home in the water.

The boys, numbering about thirty, opened the meet with a water dash for lads from 10 to 13 years. This was won by Carl Reese, Jeda Massene and George Zickel; water dash, 13 years and over, won by Mike Dudack, Dominic Metz and Eddie Kivolch; underwater swimming contest was won by Mike Dudack, Carl Reese and Frank Pishonieri; swan dive contest, won by Dominic Metz, Mike Dudack and Eddie Kivolch; jack-knife dive, won by Carl Reese, Eddie Kivolch and Chuck Brophy; back-dive contest won by Dominic Metz, John Zickel and Clyde Shrock; back-flop diving contest, won by: Chuck Brophy, Dominic Metz and Clyde Shrock; frog jump contest in diving, won by: Chuck Brophy, Clyde Shrock and Lee Shirley. The boys all worked hard, and their facial expressions, especially when doing the "jackknife" were well worth the price of admission.

Then came the girls' turn. They shivered under the showers obediently and dove into the pool expertly. They had to be coaxed onto the diving board, but once there, they credited themselves nobly. Their part of the contest opened with a water dash for girls 10 to 13 years, won by: Annie Lewchinka, Helen Toth and Helen Gray; dash, 13 years and over, won by Annie Dudack, Viola Bookamer and Mary Schuster; swan dive, won by Annie Dudack, Tess Gretch and Viola Bookamer; jack-knife dive, won by Mary Schuster, Annie Dudack and Tess Gretch; underwater swim, won by Pauline Kaylor, Margaret Kaylor and Mary Loss; dew drop dive contest, won by Viola Bookamer, Mary Schuster and Annie Lewchinka; Back Swim contest was won by Annie Lewchinka, Pauline Kaylor and Helen Toth; underwater swim for older girls, won by: Tess Gretch, Vivian Bookamer, and Annie Dudack; Back swim contest, won by: Annie Dudack, Mary Schuster and Tess Gretch. The girls in the audience showed more pep about applauding their contestants, than did the boys, and lustily cheered their favorites on to victory. Little Annie Lewchinka, a veritable tad-pole who fairly lives in the pool, won her races by sheer effort and her ever-ready grin. One of the spectators, indeed, was smitten by her charms, that she promised Annie a new swimsuit for the next social affair in the pool.

The judges had a hard time deciding among the merits of the contestants, and the meet was well worth viewing. On Wednesday, the three playgrounds will compete in a horse-shoe pitching contest at the Lincoln grounds. Judges for last night's tourney were: Life-guard, Jud Leibendoffer, Miss Irene Ross, Miss Mildred Wilson, Fred Roebuck and Frances Keller.

## Mrs. Iseman Is Club Hostess

ELLWOOD CITY, Aug. 20.—Mrs. C. M. Iseman of Crescent avenue entertained the members of the Original Bridge club Monday afternoon at her home.

Two tables of bridge were in play, and special guests present were: Mdm. Bernard Bogdanawicz of Paris and Mrs. Carl Ziegler. At the conclusion of a pleasant afternoon, score honors for the club went to Mrs. Kathryn Hainer and Mrs. R. C. Steifel, and the guests each received a dainty favor. The club will meet again next week, place of meeting to be announced later.

## Stag Corn Roast At Club Wednesday

ELLWOOD CITY, Aug. 20.—A club every played by the Men's Entertainment committee, is the corn roast, a stag affair, which is scheduled for Wednesday evening at the Country club. Preceding the roast will be a golf match staged by the Blue and Red teams of the Country club. Theodore Markwort and Ray Johnson have charge of the match, and a good time is anticipated by all who plan to take part in the shooting and eating.

**ATTEND SERVICES**  
ELLWOOD CITY, Aug. 20.—Mr. and Mrs. Fred C. Scheppel of the Ellwood-New Castle road motored to New Brighton this morning, where they attended the services of C. M. Behringer, the former's grandfather, who passed away Saturday night at his home in Beaver Falls.

**P. H. C. MEETING**  
ELLWOOD CITY, Aug. 20.—The regular meeting of the P. H. C. takes place this evening at 7:30 in the lodge room, corner Lawrence avenue and Sixth street. Business meeting will be followed by a social hour and refreshments.

## Promotions Received By Local Mill Men

Stevenson Findlater Promoted To Fine Position In The Pittsburgh Tube Office

ELLWOOD CITY, Aug. 20.—Stevenson Findlater of this city, while a young man, has received the distinction of being promoted to the position of assistant to G. P. McNiff in the National Tube company offices in the Frick building in Pittsburgh. Mr. McNiff is assistant vice-president, in charge of all mill operations. The congratulations of Mr. Findlater's many local friends are extended to him in his promotion.

Succeeding Mr. Findlater is George Moyer of Fountain avenue, who has been made superintendent of production, in the local plant, he admitted upon questioning. Taking Mr. Moyer's place is Tom Crowthers of Ewing Park, whose title will be chief of the order department. These changes take effect September 1, stated Mr. Moyer, and he and Mr. Crowthers are being congratulated upon the fact that their recent promotions will more closely ally them with the important central turning spoke in the many and important branches of the National Tube company.

## Birthday Event Celebrated Here

ELLWOOD CITY, Pa. Aug. 20.—Honoring the birthday anniversary of their son Carl, Mr. and Mrs. Jas. A. Gallaher entertained a large number of his friends at their home in Ellwood Saturday evening. A moonlight party on the lawn with games and contests, followed by the building of a bonfire where delectable viands were roasted added to the enjoyment of those present.

The honor guest was showered with an assortment of beautiful gifts.

Mrs. Earl Hollerman and Mrs. R. G. Frederick assisted the hostess in serving. Guests present were: Misses Ruby Cogley, Hazel Wehman, Lydia McElwain, Grace Rutter, Christina Dolter, Frances McElwain, Irene Falen, Delphine Hartzell, Emma Mortenson, Ruth Bauger, Jeda Graham, Frances Gallaher, Jewel Badger, Charlotte Kauffman, Goldie Craus, Annabelle Bunzo, June Christy, Doris Cowan, Katherine Parker, Jessie Coates, Dorothy Nye, Stella Wells, and Fay Gallaher, Miss Catherine O'Connell of New York City, Miss Marie McEhroe of Beaver Falls, Miss Ruth Stewart of New Castle, Pa. ## Entertain On Son's Fifth Birthday

ELLWOOD CITY, Aug. 20.—Mr. and Mrs. Ernest Reinheimer of Wood street, entertained at a birthday party Saturday afternoon at their home in honor of Junior's fifth birthday anniversary. Nine little boys enjoyed the various games and contests, and Junior was the proud recipient of many lovely gifts in honor of the occasion.

Later suitable refreshments were served by Mrs. Reinheimer, assisted by Miss Carrie Reinheimer. The inevitable birthday cake made its appearance, boasting five glittering tapers.

Those enjoying the party were: Junior Reinheimer, Donald McQuilken, Edward Reilly, Harold Billy and George Roy, Ray Wright, Dickie Brock and Bobbie Wallace.

## Truck Catches Fire, At Gas Yard Here

ELLWOOD CITY, Aug. 20.—An alarm was turned into the local fire department at 2:15 Monday afternoon summoning the help of the fire department to extinguish a blaze which started in a truck at the Allen Gas yard at the corner of Eighth street and the B. and O. Railroad. Chief Pianta stated that the fire started by static. The blaze was put out in a few moments, but the damages are estimated at \$150.

**ELLWOOD PERSONALS**

## New York Police Nab Man For Fake Checks, Local Names

ELLWOOD CITY, Aug. 20.—A man giving his name as John Murphy has been captured by the New York police, for passing allegedly bad checks, upon which he is said to have forged the certification stamp bearing the name of Blaine Hancher of the Citizens Bank and Charles Jackson of the Peoples bank of this city. The checks were also drawn on the afore-mentioned banks, according to information sent by the New York police to the Davidson Feed store of this city. The man is not known to have been in Ellwood personally but is thought to have had an accomplice. He is now in the custody of the New York police officials.

## Interest Evincing Over Local Politics

ELLWOOD CITY, Aug. 20.—Much interest is being shown over the local political situation, which will terminate in the September 27 primary elections. The position of Burgess has attracted Jud Turner, Lee Kimes, Charles Stiner and Ben Swick on the Republican ticket, and Robert Curry and Jud Turner on the Democratic ticket.

For Tax collector, Oscar Dahl, Peg Minner, Harvey Aiken, Frank Blackburn and T. A. E. McConaghy on the Republican ticket, and V. T. Paladino and James McKim on the Democratic ticket. For Justice of the Peace, S. Y. Douds and Jacob E. Vangorder on the Republican ticket. This year's crop of candidates exceeds the number noticed here for several years, and should provide much interest for local politicians in September.

## Dorcas Class Plans For Tureen Dinner

ELLWOOD CITY, Aug. 20.—Fourteen members of the Dorcas class of the First Baptist church enjoyed a monthly meeting at the home of Mrs. Earl Rodgers of Wurtemburg, with Mrs. Henry Wiley as point-hostess.

A brief business session was conducted at which time the ladies planned for a tureen dinner which would take place in two weeks at the church. Games and contests were enjoyed until later in the evening when the hostess served light refreshments, assisted by Miss Charlotte Rodgers.

## Electric Official Talks To Local Club

ELLWOOD CITY, Aug. 20.—"Red" Campbell, an official of the Westinghouse company of Pittsburgh was the speaker at the regular weekly dinner-meeting of the Kiwanis club in the dining room of the Trinity Lutheran church Monday evening. His subject "Illumination" was well handled from a practical and scientific standpoint, and he illustrated his remarks most interestingly, with concrete examples of the various types of incandescent globes.

Also present was Dr. Wells, past district secretary, and members of the Beaver Falls Kiwanis club, who gave a short talk to the members.

**FISHERMEN REPORT**  
ELLWOOD CITY, Aug. 20.—Dr. C. M. Iseman, Arthur Roeloff, Harold Carwright, W. R. Thompson and Dr. J. O. Brown are on a fishing trip at Lake Chimaine, in the northern part of Ontario, near Hall's bridge. They report that the weather is extremely cold, and the fish seem annoyingly averse to biting. However, they hope for better luck before their expected return to Ellwood City next Sunday.

# HIGH LIGHTS OF HISTORY

By J. Carroll Mansfield

The Story Of The World War  
—America Unprepared For War

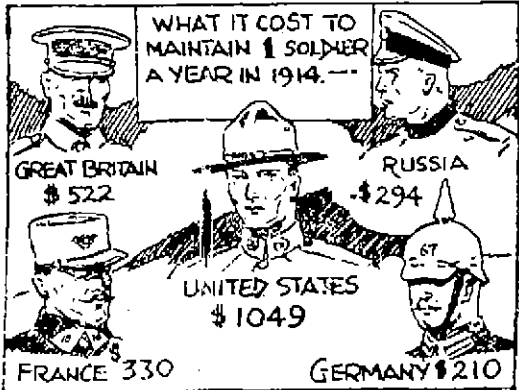

DEEPLY INTERESTED IN THE WORLD WAR FROM ITS BEGINNING IN 1914, AMERICANS BECAME MORE AND MORE ABSORBED AS THE GREAT STRUGGLE PROGRESSED. FROM TIME TO TIME OUR INTERESTS AND NATIONAL HONOR SEEMED IN DANGER OF BECOMING INVOLVED.

OUR RELATIONS WITH GERMANY WERE STRAINED BECAUSE OF HER ACTS OF SUBMARINE WARFARE. MANY AMERICANS BELIEVED GERMANY TO BE SECRETLY HOSTILE AND THAT IF SHE CONQUERED IN EUROPE SHE WOULD NEXT ATTACK US.

THE PROSPECT OF EVENTUALLY BEING DRAWN INTO THE CONFLICT IMPULSED AMERICANS TO TURN THEIR ATTENTION TO OUR OWN INADEQUATE NATIONAL DEFENSE

EARLY IN 1914 OUR REGULAR ARMY WAS OF A TRIFLING SIZE AS COMPARED WITH THOSE OF THE GREAT EUROPEAN POWERS. WE HAD 634 FIELD GUNS, BUT NO LARGE RESERVE OF AMMUNITION. OUR 1,000 MACHINE GUNS WERE OF OBSOLETE DESIGN, AND WE LAGGED FAR BEHIND IN MILITARY AVIATION.

THIS STATE OF UNREADINESS FOR WAR NEED NOT ASTONISH US. OPPOSITION TO MILITARISM OF THE EUROPEAN KIND WAS INHERED WITH THE PEOPLE. THE BURDEN OF ARMAMENT WAS FIVE TIMES AS HEAVY A MAN IN THE UNITED STATES AS IN GERMANY.

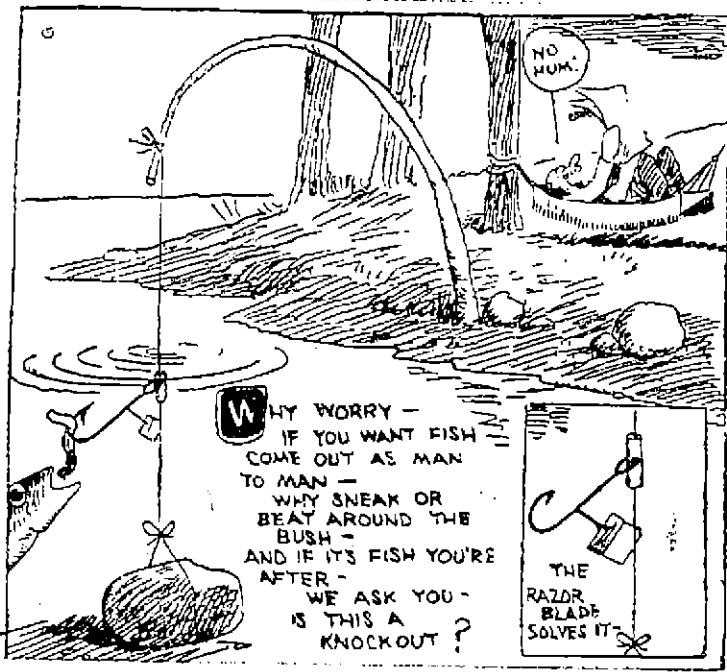

WE WERE EMPLOYING THE VOLUNTARY SYSTEM OF SERVICE, WHICH IS ALWAYS A DIS-ADVANTAGE WHERE WAGES ARE HIGH. IN THE FACE OF THE GREAT AND GENERAL INDIFFERENCE TO LARGE DEFENSIVE MEASURES, NO INFLUENTIAL POLITICAL LEADERS HAD BEEN WILLING TO CHAMPION THE CREATION OF AN ARMY ADEQUATE TO THE DEFENSE OF THE COUNTRY. —(JOHN SPENCER BASSETT.) Phils Hand Pirates Two Defeats In Hectic Afternoon At Quaker City

### BUSHMEN DROP FURTHER BACK

PHILADELPHIA, Pa., Aug. 20.—The Pittsburgh Pirates lost two games to the Phillies here yesterday afternoon and dropped further back in the race for the National League flag. The Cubs being idle, gained on the Bushmen.

The Quakers just managed to squeeze out a 7 to 6 victory in the first game, aided by two errors by the Pirates, coupled with 14 hits and a wild pitch.

In the second game the Pittsburgh team could not hit when hits meant runs and wasted 12 hits. The Phils had 15 hits off three Pirate hurlers.

## Gob Has 'Em Guessin'

Ever since Gene Tunney resigned the world's heavyweight championship a little more than a year ago a decided majority of fight fans and critics have considered Jack Sharkey the best of the big boxers although his prowess does not seem to arouse much public enthusiasm. He easily beat Young Stribling last February at Miami but it was one of those less-than-victorious fights, when the fact always has been that Sharkey was and is as decent, as mild as modest and as gentlemanly a chap as one would care to meet in professional athletics. The mob fell for that bragging-bully publicity. It helped Sharkey as a gate attraction because crowds pay in hoping to see him flattened. Thousands boo him at the slightest provocation.

Jack collects big but—the boots, which he professes to scorn must hurt just the same. He gets even with the mob by deliberately winning with as little effort as possible collecting as much money as possible. If he could rid himself of that cynical attitude and fight with the will to win paramount Sharkey might prove one of ringdom's great champions.

Fan opinion has it that usually the Boston sailor doesn't half try. The "Sport Bug" believes he lacks the will to win except on certain occasions. Jack's syndicate attitude that those birds can call me a Polack palooka as long as they pay me the big dough" accounts largely for the indifferent class of Sharkey as a near-champion. Good or bad the Gob always has 'em guessin'.

Of course the Sharkey man has some good grounds for such cynicism. He was a corner when Tunney the

## Wampum Trims Italians 5-1

Mundo Gives League Leaders But Two Hits; Five Straight For Wampum

The league leading Italian A. A. team took one on the chin from the second-place Wampum team last night at Centennial Field. The score was 5 to 1. Mundo was the star of the game, holding the heavy hitting Italians to two safe bingles.

Mundo was master of the Italians the entire way, fanning nine batters and was never in danger. Shiek was the pitcher used by Manager Black and he was found for six hits, Fitzgerald and Moore had doubles for the Wampum team as the only extra-base blows. Moore was the feature hitter of the game.

It was five straight victories for Wampum, and the boys from down in the southern part of the county are confident of giving the Italians a good run for their money in the remainder of the season.

The winning streak of the Italians was snapped.

### Capone Wishes Walker Success

PHILADELPHIA, Aug. 20.—Mickey Walker, the world's midweight boxing champion, and his ebullient manager, Jack Kearns, visited "Scarface Al" Capone just a few hours before Walker's battle with Leo Lomsd before last night it was reported today.

After the welching in ceremony the pair got in touch with Dr. Herbert Goddard, one of the prison trustees who is a good friend of Walker and arranged for the social visit to the Eastern penitentiary where the Chicago racketeer is now spending his time. "Scarface Al," it is said, wished Mickey lots of luck.

## Cubs Are Idle, But Gain Points In Flag Chase

Pittsburgh Pirates Drop Pair While Cubs Are Held In Hotel By Showers

### SEVEN GAME LEAD ENJOYED BY CUBS

By HENRY McLEMORE

International News Service Staff Correspondent

NEW YORK, N. Y., Aug. 20.—Chicago's Cubs had much rather play baseball than discuss it.

Not that the McCarthy outfit is above healthy post mortems of each play while lingering under the show-ers, but given their choice between a day of bridge in their hotel and a game of ball they would undoubtedly choose the latter.

Reports have it that the boys all but playfully smashed the furniture in their hotel yesterday as rain kept them from taking a few chews at the

Giants. The same reports have the Giants, Robins and Cards immensely pleased with the rainy day that gave them an opportunity to try for a few grand slams.

Seven Game Lead

Incidentally the Cubs are leading the National League race by some seven games.

Yesterday's National proceedings were enlivened by the Phillies climb out of the cellar, these tremendous hitting boys stepping over Boston by clubbing Pittsburgh twice, 7 to 6 and 8 to 5.

Burling Grimes who for the past few weeks has been nursing an injured hand, got back into action for the Pirates as a relief pitcher in the second game.

All other National League games were rained out.

American affairs were featured by Collegian Roy Sherid's winning of his first Major League game when the Yanks turned back the White Sox 3 to 2.

Sherid was aided no little by cripple Ruth's two timely singles and a three base miff of Conlin's fly at Walwood.

The Athletics kept step with the Yanks as Bill Shores had little trouble in curbing the Browns while his team-mates rapped out an 8 to 2 win. Shores held St. Louis scoreless until the final inning. Bishop and Haas got home runs.

Errors gave the Senators a 5 to 1 win over Cleveland, only one of Washington's runs being earned. Sam Jones was the winning pitcher.

Boston and Detroit split a double-header with the Tigers capturing the second game 6 to 2, after dropping

the first, 3 to 2. Vic Sorrell and Milt Gaston were the winning pitchers.

Oh, yes! The great Shores, Chicago's portable talking machine, as touted his public by remaining quiet as the Yanks trimmed his beloved Sox.

### Central Presbyterians Defeat Methodists

Central Presbyterians Take Step Nearer Pennant in Church League

The Central Presbyterians nipped out the First Methodist team last night 6 to 4 in a fast game played at Scotland Lane field. The Methodists could not solve Sargeant and Melder effectively and had but five hits.

The Methodists led off in the first inning with four runs but could do nothing about scoring thereafter. Sargeant relieved Melder in the first frame after two hits and two errors had given the M. E. team their runs and held the Methodists in check.

It was an uphill battle for the Presbyterians but they got to Baker in the last three innings for six runs.

The batting of Rearek with three safe blows was a big feature of the

game while Saeed, Baker and Uhle also hit timely.

## HEAR MANY REPORTS OF TRAFFIC MISHAPS

Police sergeants on duty at the police station are again being kept quite busy taking accident reports, after a comparative lull for several days. In most instances both machines involved in the accident reported are damaged.

James J. Flynn of 350 Delaware avenue, reported Monday that he was enroute south on Delaware avenue at Euclid avenue as a car bearing Pennsylvania license 125-513 was going in the same direction. In front of the Flynn car. This car has been parked on Delaware avenue and was going across Delaware avenue into Euclid avenue and the machine came together both being damaged.

Norman Pearl of R. D. No. 3, reported Monday that he was enroute south on South Mill street and making a left hand turn into an alley just north of the People's Ice company as part of the New Castle Taxi company, driven by Edwin Fisher of 16 West Wallace avenue going south on Mill street. At the rear of his machine, doing damage. According to Fisher, Pearl made no signal and his machine skidded into the other machine as he turned to one side to avoid the other car.

H. Shaw of Volant, Pa., also reported that he was enroute south on East Washington street, near Butler avenue as a man driving a truck bearing Pennsylvania license 51-322 also enroute south ran into and damaged his machine.

Marie E. McDermott of 498 County Line street, was enroute south on North Jefferson street at Grant street as a man driving a car bearing Pennsylvania license 124-559 going in the same direction cut in ahead of her machine to go west on Grant street and the two machines came together, both being damaged.

Zearl Fowler of 615 North Cedar street, reported that he was driving on Madison avenue and had come to a stop on account of the red light. He started to make a left hand turn onto Liberty street on the green light as Tony Olszanski, 714 Pennsylvania avenue, drove through the red light, hitting and damaging his machine.

Joseph Lutko of Tarentum, Pa., reported that he was enroute east on Grant street as Francis Madden, 710

Some News, Some Views, But Mostly Just Observations Of Interesting Things Around New Castle

Walking around a golf course without a bag of clubs is like going to the beach in a fur coat in August. You get the exercise without the fun, or the fun without the exercise depending upon whether you are a golf player or take your fun in a rocking chair.

Did a flock of miles yesterday afternoon plodding over the new municipal course out on the Ellwood road and while it isn't in the shape that Piping Rock is, or even Oakmont, you can take my word customers that it really has the earmarks of being the genuine McCoy.

If you like a rolling course you'll love this one. It rolls like a roller coaster all the way round and on really should carry a lemon with him to prevent seasickness. If there is one stretch more than twenty yards long, that is flat, it must be the front porch of the clubhouse. When the Architect of the Universe laid that plot out he must have been in a whimsical mood.

It looks easy too, oh so easy, but closer examination leads you to the discovery that there are plenty of tricky places that will cost shots. Deceiving little hills, knolls that will deflect a golf ball and always in the wrong direction, dips in the ground that will be tough ones to play and altogether it is a safe bet that nobody is going to break par out there for a while.

Hub Hart is doing the work of a couple of section hands out there getting the place ready for Friday's opening and after that, you can get your clubs ready.

Charles "Lindbergh" Walther, the tattered haired lad on The News has a lot of clubs bought already. Charley has a driver, a putter and an alibi and will probably use the last named the oftener. His golf game should improve, his flying lessons, or his flying lessons should improve his golf. In either event he is going to be in the air considerably.

The Lexicographer is back on the job again. Seems though I used the word nickel and spelled it nickle. Somewhere there is a spelling of the word, with the "ie" instead of "ei" but thus far it can't be found.

The difference between malicious mischief and boyish play depends upon the speed with which you are driving an automobile it seems. Squire Cooper of the Eighth Ward has just issued the last word in the matter. The squire had a funny car before him. A few lads were up for malicious mischief, a windshield having been broken in an automobile.

The driver said the boys had thrown stones through his windshield on Arlington avenue. The testimony of the boys was that they had been bouncing a "shooter" or "commy" or if you must be technical, a marble, on the street. As they bounced it, the car came along and ran smack dab into it, breaking the windshield.

Squire Cooper discharged the boys and now they are wondering if they can bring action to recover their "shooter."

As a matter of fact anything can happen on Arlington avenue. The

city could make a lot of money charging for rides on it, for the sea wave machines in resort parks have nothing on Arlington avenue.

When Barney Dreyfuss reads this he certainly will be sore. Tommy Blake is off the Pittsburgh Pirates. Tommy had his vacation all planned to take in the World's Series, figuring that it would be between Pittsburgh and Philadelphia. Like he usually does, Tommy was going to buy seats for every game and then travel between the two cities.

Then the Pirates went haywire and now it looks as though Chicago would get the National League rag. Tommy won't go to Chicago for he doesn't like machine guns.

He isn't so sure he would like Philadelphia for he doesn't like the Quakers. Says he doesn't like to see people going around the streets quaking.

## BACK TO WORK; KONJOLA BRINGS SPEEDY RELIEF

Man With Many Ills Had Tried Many Medicines; All Failed Until He Found New Medicine.

MR. JOHN KAEBERLEIN

"I was so run down that I had to quit my work," said Mr. John Kaeberein, 1705 Grand Street, Erie, Pa. "I was no work it was an effort to breathe; I had no appetite and was terribly constipated. I was under my eyes and the eyeballs were yellow. I was told I had jaundice. I became so dizzy at times that I staggered.  
"I was the most run-down and dejected man when I noted the effects this Konjola had on my system. I had finished the fourth bottle when I was practically well—and now that I have completed the treatment I feel better, sleep better and eat better. No wonder Konjola is called the master medicine, and I endorse it with all the enthusiasm at my command."  
Konjola is sold in New Castle, Pa., at Leve & Algonquin drug store and by all the best druggists in all towns throughout this entire section.
